HORIZON 2020
COOPERATION, INNOVATION, COMPETITIVENESS

Intro to Project

The Türkiye in Horizon 2020 project is an European Union / Turkish Government collaboration that is raising awareness of Horizon Europe R&I programmes and provide the Turkish Research Area with training, networking events, valuable documentation and online tools that will help them participate in the top Research and Innovation support programme in Europe.

Our objective is to strengthen the capacity of Türkiye in Science, Technology and Innovation and facilitate the integration of the Turkish Research Area to the European Research Area through increasing its participation in Horizon2020 and Horizon Europe.

In this context, we organize and delivery a series of training and networking events focusing on Horizon Europe.

Türkiye – EU High Level Dialogue

At the Turkey-EU High Level Dialogue Meeting, which was held for the first time in the fields of science, research, technology and innovation, new approaches and ideas were discussed for our continued cooperation

“We will take a green-focused approach and focus on increasing the effectiveness of EUREKA globally”

Türkiye 2022 Report

Moving forward with twin transformations by focusing on the green and digital transition in Horizon Europe in the direction of developing science and research remains one of its main strengths for Türkiye

Turkey's preparations in the **area of science and research** are well advanced

Türkiye signed association agreement for **Horizon Europe** for the **2021-2027** period

"Türkiye's preparations in the **area of science and research** are well advanced and Türkiye made **good progress** during the reporting period, notably with the conclusion of the association agreement for Horizon Europe for the 2021-2027 period"
