

International Brokerage Event
Brussels, 26-27/10/2017

Ortelio LTD
Ilias Trochidis
it@ortelio.co.uk

Description of the Organization

- Ortelio is a **research focused ICT service provider**: We design, develop and market state-of-the-art software.
- Ortelio employs highly skilled **software developers and engineers, transport planners, economists and business and innovation consultants**. Our staff is multicultural and multilingual, with in-depth experience in their respective domains.
- We are **coordinators** of two **H2020 transport projects**:
 - **NEWBITS**: New Business models for ITS (<http://newbits-project.eu>)
 - **NOESIS**: NOvel Decision Support tool for Evaluating Strategic Big Data investments in Transport and Intelligent Mobility Services (starting in November 2017)

Description of the your research interest

- Extensive expertise in the following domains:
 - Transport (multi-modal) planning
 - IT solution development for mobility management
 - Big data in transport management
 - Transport modelling and simulation
 - Market research and forecasts
 - Technology screening
 - Innovative Business Modelling
- We offer our expertise to collaboratively develop H2020 proposals in the above mentioned domains.

WP2018-2020: MG-4.3: Building Open Science platforms and codes of conduct in Transport

- **Objectives:**
 - to identify current practices in implementing various aspects of **Open Science** in transport research,
 - to map the landscape of **existing research data infrastructures** and **scientific clouds** as well as **governance models** in transport research
 - to identify the main **challenges** and **opportunities** for implementing the various aspects of **Open Science** in the area of Transport Research
 - to identify and engage international partners for **mutual learning** and **sharing best practices**
- **Expected results**
 - to create a common understanding on the practical **impact of Open Science in the area of Transport Research**,
 - to identify current practices and devise concrete approaches for **operationalising Open Science in Transport Research**.

Consortium - profile of known partners *(if any)*

No	Partner Name	Type	Country	Role in the Project
01	Ortelio	SME	UK	Transport research / Open science
02	European Citizen Science Association (ECSA)	RTD	DE	Open science / citizen science
03				
04				
05				
06				
07				
08				

Consortium - required partners

No	Expertise	Type	Country	Role in the project
01	Open science	RTD		To review the state-of-the-art in open science projects (current examples/ domains etc.)
02	Transport research	RTD		To collaboratively work with the rest of the consortium to improve the project idea
03				
04				
05				
06				
07				
08
