ITENE's description and research interest

ITENE was founded in 1.994 as a private association with **NON PROFITABLE PURPOSES** and integrated by companies and institutions related to Packaging and Logistics

ITENE'S previous experience

39 Projects financed in FP6-FP7

5 Coordinators

6 Technical management

28 WP leader

120

Professionals

22 Financed projects in other calls: LIFE, Interreg, Ecoinnovation (coordinators in 3 Lifes and 1 Sudoe)

23%

Doctors

10 projects financed in H2020

2 Coordinators: waste, BBI

1 Technical management

14

Qualifications

18 SME's Instrument Phase 1 and phase 2 (support to the coordination, management and business)

3%

Annual investment in
Technical training

Sustainable multi-modal transport in urban and inter-urban areas

- Objectives:
 - To identify new forms of mobility in passenger and freight transport, passenger experience
 - New solutions for collective transport and transport planning, definition of SUMP's and control policies before its implementation
 - New operating and business models in collective public and private transport
 - Management of the transport network
- Expected results
 - Reduce congestion, emissions, noise... in metropolitan regions
 - Increase intermodality and multimodal infrastructure, modal interchanges, intermodal logistics platforms: infrastructure, feasibility.
 - Effective mobility policies in the cities
 - Transformation path towards sustainable mobility
- Topics
 - **LC-MG-1-2-2018:** Sustainable multi-modal inter-urban transport, regional mobility and spatial planning
 - **LC-MG-1-3-2018:** Harnessing and understanding the impacts of changes in urban mobility on policy making

Consortium - required partners

No	Expertise	Type	Country	Role in the project
01				Local authorities
02				Transport operators
03				Policy makers
04				ITC company
05				Sustainable vehicles
06				...
07				
08				

ITENE is interested in...

- MG-3-3-2018: "Driver" behaviour and acceptance of connected, cooperative and automated transport
- LC-MG-1-10-2019: Logistics solutions that deal with requirements of the 'on demand economy' and for shared-connected and low-emission logistics operations
- MG-2-9-2019: Inco Flagship: Integrated multimodal, low-emission freight transport systems and logistics
- LC-GV-03-2019: User centric charging infrastructure
- MG-4-5-2019: An inclusive digitally interconnected transport system meeting citizens' needs
- LC-GV-05-2019: InCo flagship on “Urban mobility and sustainable electrification in large urban areas in developing and emerging economies”
