**EIC Accelerator Challenge: Novel technologies for resilient agriculture** Call for proposal Grant

HORIZON-EIC-2023-ACCELERATORCHALLENGES-06

# Disruption!

EIC Accelerator disruption of submission service

Dear EIC Accelerator Applicant,

We regret to inform you that a disruption has occurred in the online application system for the 7 June 2023 EIC Accelerator cut-off, which unfortunately also has implications for your application recently submitted. With this message, we would like to provide you with all the information we have available.

The EIC AI Platform, in which you have submitted your application, is no longer operating due to a contractual dispute. As from today, all applications for the EIC Accelerator for the 7 June cut-off will need to be submitted through the Horizon Europe Funding and Tenders Portal. This includes all applications that were already completed and submitted in the EIC AI Platform. This is the only way to ensure that all EIC Accelerator full (Step 2) proposals will be evaluated equally and on the same basis, as the application forms on the Horizon Europe Funding and Tenders Portal have a different format than the forms that were available on the EIC AI Platform. To accommodate this change, the deadline for submitting full (Step 2) EIC Accelerator proposals for the 7 June 2023 cut-off has been postponed until 21 June 2023 at 17:00 CET.

To facilitate the resubmission of your proposal on the Horizon Europe Funding and Tenders Portal, your proposal as submitted on the EIC AI Platform will be available through a link that you will receive as soon as possible and in any case by early next week.

Please see below the relevant links to be used in order to proceed with the resubmission.

We fully acknowledge and regret that this unfortunate situation will add an extra unwanted burden on top of the extensive time and effort you have already put into your application.

Please find below the links to all EIC Accelerator calls on the Horizon Europe Funding and Tenders Portal:

- [EIC Accelerator Open 2023](#)
- [EIC Accelerator Challenge: Energy storage](#)
- [EIC Accelerator Challenge: Novel technologies for resilient agriculture](#)
- [EIC Accelerator Challenge: Emerging semiconductor or quantum technology components](#)
- [EIC Accelerator Challenge: Aerosol and surface decontamination for pandemic management](#)
- [EIC Accelerator Challenge: Customer-driven, innovative space technologies and services](#)
- [EIC Accelerator Challenge: Novel biomarker-based assays to guide personalised cancer treatment](#)
- [EIC Accelerator Challenge: New European Bauhaus and Architecture, Engineering and Construction digitalization for decarbonisation](#)

More information on how to submit a proposal through the Horizon Europe Funding and Tenders Portal can be found in the [online manual](#).

For regular updates on the EIC call application process, please consult the [EIC website](#) and the [EIC AI platform related FAQ](#) page.

In case you have questions that are not answered in the FAQs or EIC Website, don't hesitate to get in touch with the EIC Team through: [support@eic.eisma.eu](mailto:support@eic.eisma.eu)

We thank you in advance for your understanding, and we appreciate your adjustment to this unforeseen development.

The EIC Team/EIC Evaluation Team

**June**  
EIC AI Platform terminated  
Short Proposal submissions paused  
June cutoff postponed to June 21 from June 7  
Full Application form restructured  
Full Applications possible via F&T portal

**July**  
New IT platform for Short Proposals activated  
Short Proposal submissions resumed  
Full Application form updated

**Aug**  
October cutoff postponed to Oct 19 from Oct 4  
New Guide for Applicants published  
EIC Work Program 2023 amended

## New EIC Board recommendations to improve Full Proposal submissions

to follow VC industry standard, and to make it feasible for startups to complete themselves without consultants.

### 1. Content

- ❖ **Slide Deck** (addressing key questions)
- ❖ **Business Case** (no longer than 50 pages) **and Data Pack**
  - **Industry Standard** (Company description, the problem/market opportunity, the innovation-solution/product or services, competition analysis, marketing and sales plan, risks, team, financial plan, cap table, etc.)
  - **EIC Specific Information** (Impact of EIC support on the company, the funding request, implementation plan for the grant)

### 2. User interface of the (EIC AI) platform

- ❖ Far fewer questions, less fragmented layout, avoiding overlaps and repetitions, include graphics, tables, reuse information from other platforms, diagnostics and AI tools should be offered as options, not mandatory, etc.

### 3. Usability for the evaluators, investment decisions, investment and grant management

- ❖ More importance to slide deck (at all steps), clear alignment with EIC Evaluation Criteria, better differentiate the assessment for grant vs. equity, remove information which is not used or relevant, etc.

33

The screenshot shows a LinkedIn post from the TÜBİTAK Ufuk Avrupa Programı page. The post title is 'Avrupa Yenilik Konseyi (EIC) Hızlandırıcı Programının Başvuru süreciyle İlgili Değişiklikler'. The post text discusses changes to the EIC Accelerator program starting from June 2, 2023, and provides a link to the updated application guide. The post has 6,616 followers and was edited 2 months ago. The bottom of the screenshot shows a purple banner with the text 'Update for EIC Accelerator applicants' and a reactions bar with 17 reactions.

# New Application Forms

The background of the slide features a stylized world map. The map is composed of a network of glowing white nodes connected by thin white lines, creating a global network or data flow visualization. The map is centered on the Atlantic Ocean, with North and South America on the left and Europe and Africa on the right. The overall color scheme is light blue and white, with a gradient background that transitions from white at the top to a light blue at the bottom.

All declarations have to be agreed when submitting the form

- We declare to have the explicit consent of all applicants on their participation and on the content of this proposal.
- We confirm that the information contained in this proposal is correct and complete and that none of the project activities have started before the proposal was submitted (unless explicitly authorised in the call conditions).
- We declare:
  - to be fully compliant with the eligibility criteria set out in the call
  - not to be subject to any exclusion grounds under the EU Financial Regulation 2018/1046
  - to have the financial and operational capacity to carry out the proposed project.
- We acknowledge that all communication will be made through the Funding & Tenders opportunities Portal electronic exchange system and that access and use of this system is subject to the Funding & Tenders opportunities Portal Terms & Conditions.
- We have read, understood and accepted the Funding & Tenders Portal Terms & Conditions and Privacy Statement that set out the conditions of use of the Portal and the scope, purposes, retention periods, etc. for the processing of personal data of all data subjects whose data we communicate for the purpose of the application, evaluation, award and subsequent management of our grant, prizes and contracts (including financial transactions and audits).
- We declare that the proposal complies with ethical principles (including the highest standards of research integrity as set out in the ALLEA European Code of Conduct for Research Integrity, as well as applicable international and national law, including the Charter of Fundamental Rights of the European Union and the European Convention on Human Rights and its Supplementary Protocols).

Appropriate procedures, policies and structures are in place to foster responsible research practices, to prevent questionable research practices and research misconduct, and to handle allegations of breaches of the principles and standards in the Code of Conduct.
- We declare that the proposal has an exclusive focus on civil applications (activities intended to be used in military application or aiming to serve military purposes cannot be funded). If the project involves dual-use items in the sense of Regulation 2021/821, or other items for which authorisation is required, we confirm that we will comply with the applicable regulatory framework (e.g. obtain export/import licences before these items are used).
- We confirm that the activities proposed do not
  - aim at human cloning for reproductive purposes;
  - intend to modify the genetic heritage of human beings which could make such changes heritable (with the exception of research relating to cancer treatment of the gonads, which may be financed), or
  - intend to create human embryos solely for the purpose of research or for the purpose of stem cell procurement, including by means of somatic cell nuclear transfer.
  - lead to the destruction of human embryos (for example, for obtaining stem cells) These activities are excluded from funding.
- We confirm that for activities carried out outside the Union, the same activities would have been allowed in at least one EU Member State

Consent

Your National Contact Point, Enterprise Europe Network (EEN) Members and Knowledge Innovation Communities of the European Institute of Innovation and Technologies (EIT KICs) may be a useful source of information and support in preparation of your full proposal. Therefore, we encourage you to share your data with them.

I consent to sharing the following data with my relevant National Contact Point, relevant EEN Member and EIT KICs:

- basic information about my proposal limited to the name, phone, email of the CEO or person in charge of managing innovation/company, proposal acronym, title, abstract, evaluation result (GO/NO GO).

The data will be made available subject to confidentiality obligations of the NCPs, KICs and EEN members.

Please note that only one Submission form can be submitted per Participant Identification Code (PIC). You will therefore not be able to submit another proposal with the same Participant Identification Code (PIC).

Your form still contains some issues preventing submission

# Application Form (PART B) (HE EIC Accelerator full application)

## Part 1 – Business case

### 1. Company description – approx. 3 pages

- Explain the core mission and vision of your company.
- Describe the position of your company in the market.
- Explain who are the key partners and their expected contributions (e.g., a first lead customer, a university, potential user groups, partners for clinical trials, etc.).
- Describe the key assets of your company (e.g., offices, laboratories, access to production facilities).
- Highlight the top 3 to 5 clients or sell side partners and their share of revenues (if applicable), the top 3 to 5 suppliers and share of cost of goods sold (COGS) or operational expenses (OPEX), and the top 3 to 5 advisors (business, scientific, other) their role and their OPEX cost.

### 2. The problem/market opportunity – approx. 3 pages

- Describe the problem you have identified and explain why it is a problem and for whom.
- Describe the unsatisfied need of potential customers. How is this addressed today and what are the shortcomings to current solutions?
- Specify the size of the addressable market.

### 3. The innovation: Solution/Product or Services (USP) – approx. 9 pages

- Explain in simple terms and with graphs if needed, how your solution works, its main features and what key areas are still subject to improvements/innovation.
- Value proposition: explain what is unique and has breakthrough potential; how this addresses the problem; how it is better than existing solutions; and why now is the right time to bring it to the market.
- Development stage: describe your technological achievements so far; specify which Technology Readiness Level this has attained; and describe to what extent your solution has been validated/certified and by whom. Please explain using a case study<sup>3</sup> (test, pilot, PoC, etc.). For health companies, explain the specifics of what clinical trials you have conducted, if any, and to what level.
- IP strategy: explain your strategy to protect your intellectual property. List your key patents including their registration number and their status, mention key relevant scientific publications. Specify patents from others for which you have secured the right of use. Explain if you are combining patents and trade secrets. Explain how you ensure your freedom to operate and provide supporting documents (in annex).

### 4. Market analysis and Competition analysis – approx. 5 pages

- Describe the targeted market - Total Addressable Market (TAM); Serviceable Available Market (SAM); Serviceable Obtainable Market (SOM); and market growth (Compounded Annual Growth Rate (CAGR)).
- Willingness to pay: explain why there is a willingness to pay from your targeted market customers. List POCs run with users and clients.
- Competitors and threats: who are your competitors? What are their limitations compared to what is offered by your expected solution?
- Provide a SWOT analysis on these aspects.

○ For Grant Work Packages: a list of deliverables<sup>3</sup> (table 3.1c);

Only include those deliverables that you consider essential for effective project monitoring.

| Deliverable number | Deliverable name | Short description | Related WP number | Lead participant | Type | Dissemination level | Delivery date (in months) |
|--------------------|------------------|-------------------|-------------------|------------------|------|---------------------|---------------------------|
| 1                  |                  |                   |                   |                  |      |                     |                           |
| 2                  |                  |                   |                   |                  |      |                     |                           |
| 3                  |                  |                   |                   |                  |      |                     |                           |
| ...                |                  |                   |                   |                  |      |                     |                           |

#### KEY

Deliverable numbers in order of delivery dates.

Please use the numbering convention <WP number>; <number of deliverables within that WP>. (For example, deliverable 4.2 would be the second deliverable from work package 4).

#### Type:

Use one of the following codes:

- R: Document, report (excluding the periodic and final reports)
- DEM: Demonstrator, pilot, prototype, plan designs
- DEC: Websites, patent filing, press & media activity, videos, etc.
- DATA: Data sets, microdata, etc. DMP: Data management plan
- ETHICS: Deliverables related to ethics issues.
- SECURITY: Deliverables related to security issues
- OTHER: Software, technical diagram, algorithms, models, etc.

#### Dissemination level:

Use one of the following codes:

- PU – public, fully open (deliverables flagged as public will be automatically published on the corresponding project overview on the EU CORDIS website)
- SEN – Sensitive, limited under the conditions of the Grant Agreement
- Classified R-UE/EU-R – EU RESTRICTED under the Commission Decision No2015/444
- Classified C-UE/EU-C – EU CONFIDENTIAL under the Commission Decision No2015/444
- Classified S-UE/EU-S – EU SECRET under the Commission Decision No2015/444

#### Delivery date

Measured in months from the project start date (month 1)

○ a list of milestones (table 3.1d) for both grant and investment components;

# Annex Mandatory Data and Consent (HE EIC Accelerator full application)

| Declarations  |  |
|---|--|
| <i>These declarations are without prejudice to the Declaration of Honour that selected applicants are requested to sign before entering into any legal commitment.</i> <a href="#">link</a> |  |
| <b>1</b>  | By applying to the EIC Accelerator Programme, you and your company declare that natural persons and Ultimate Beneficial Owners are not listed on sanctions lists and, moreover undertake not to do business with customers, or make funds or economic resources available to, or for the benefit of (directly or indirectly) any natural or legal person designated under EU sanctions EU Sanctions Map.   |
| <b>2</b>  | Moreover, you and your company declare that entities subject to EU restrictive measures under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU) as well as Article 75 TFEU will not participate in any capacity in the action, including as beneficiaries, affiliated entities, associated partners, third parties giving in-kind contributions, subcontractors or recipients of financial support to third parties (if any) - <a href="http://www.sanctionsmap.eu">http://www.sanctionsmap.eu</a> .  |
| <b>3</b>  | In addition, you and your company undertake not to enter into consultations with a view to adopt remedial measures if one of the company's business partners is designated under EU sanctions or makes funds or economic resources available to, or for the benefit of, directly or indirectly, a person subject to EU sanctions.  |
| Consent   |  |
| <i>All personal data will be handled according to Regulation 2018/1725 under the terms announced in the relevant Privacy Statement.</i>   |  |
| <input type="checkbox"/>  | In case my proposal will be selected for support through an investment component, I give my consent for the European Commission, EISMEA and other actors involved in the management of the action (e.g. EIC Fund, Alternate Independent Manager of the EIC Fund, European Investment Bank, etc.) to find a suitable Investment Partner to co-invest alongside the EIC Fund and to share necessary information, including personal data, with these Investment Partners.  |
| <input type="checkbox"/>  | Whilst EISMEA might not provide you financial support, it may award you a Seal of Excellence. This will allow your national or regional authority to help you in acquiring financial support. To benefit from this possibility, you must accept to share your basic information with the relevant authorities.   |
| <input type="checkbox"/>  | I further consent to sharing the following data with my relevant National Contact Point and EEN Member, relevant public organisations from the European Union, EU Member states and Horizon Europe associate countries (including regional innovation organisations, European Structural and Investment Funds (ESIF) Managing authorities etc.): basic information about my proposal limited to the name, phone, email of the CEO or person in charge of managing innovation/company, proposal acronym, title, abstract, amount of grant requested to the EIC, total amount of investment requested to EIC and evaluation result (GO/NO GO). |

[Table of contents](#)[Validate form](#)[Save form](#)[Save & exit form](#)sharing actions planned in the self-assessment)  Yes  NoCould the situation in the country put the individuals taking part in the activity at risk?  Yes  No**7. Environment, Health and Safety**

Page

Does this activity involve the use of substances or processes that may cause harm to the environment, to animals or plants.(during the implementation of the activity or further to the use of the results, as a possible impact) ?  Yes  NoDoes this activity deal with endangered fauna and/or flora / protected areas?  Yes  NoDoes this activity involve the use of substances or processes that may cause harm to humans, including those performing the activity.(during the implementation of the activity or further to the use of the results, as a possible impact) ?  Yes  No**8. Artificial Intelligence**

Page

Does this activity involve the development, deployment and/or use of Artificial Intelligence-based systems?  Yes  No**9. Other Ethics Issues**

Page

Are there any other ethics issues that should be taken into consideration?  Yes  NoI confirm that I have taken into account all ethics issues above and that, if any ethics issues apply, I will complete the ethics self-assessment as described in the guidelines [How to Complete your Ethics Self-Assessment](#)

Funding: Evaluation Services  
Individual Evaluation Report

### Artificial Intelligence

Do the activities proposed involve the use and/or development of **AI-based** systems and/or techniques?  
If YES, the **technical robustness of the proposed system** must be evaluated under the appropriate criterion.

#### Criterion 1 – Excellence

Technological feasibility: Is the innovation based on a technology or technologies that have been adequately assessed at least in a laboratory environment and relevant environments to characterize the potential and assess the **level of risk** (at least TRL 5/6)? Is the technology developed in a **safe, secure and reliable** manner?
