### HOW TO PREPARE WINNING FULL PROPOSALS FOR THE EIC ACCELERATOR

EIC Accelerator - Support for Deep Tech Innovators

Serkan BOLAT
March 6, 2024 – SME Webinar 18

# Serkan BOLAT SME & EIC Expert

in linkedin.com/in/sbolat

#### Proposal Evaluator & Reviewer

3 1.000+ proposals 3 10+ years

#### Consultant & Mentor

#### 25 + Year Work Experience

w/ SMEs, researchers, and founders

**†** Former Navy Supply Officer

#### PhD Dropout

Retail and Consumer Sciences, M.Sc.

Business, M.A.

Industrial Engineering, B.Sc.

ODYSSEAS SPYROGLOU Team Leader

NIKOLAOS FLORATOS
Training Coordinator

SERKAN BOLAT Senior SME & EIC Expert

#### **Today's Agenda**

Opening Speech

EIC Accelerator - Support for deep tech innovators

How to write a winning Full Application

Q&A

**Short Break** 

What differentiates winners from losers

Tips and tricks on how to become successful applicant

Q&A and Closing Speech

#### **2024 BUDGET**

Open Call €375M ~70 projects €150M Grant €225M Equity 6 Challenge Calls €300M ~55 projects €120M Grant €180M Equity

# Who is eligible?

**Sole SMEs** in a Member State or an Associated Country - No consortiums One or more **individuals** or legal entities to establish or invest in an SME

## What type of support available?

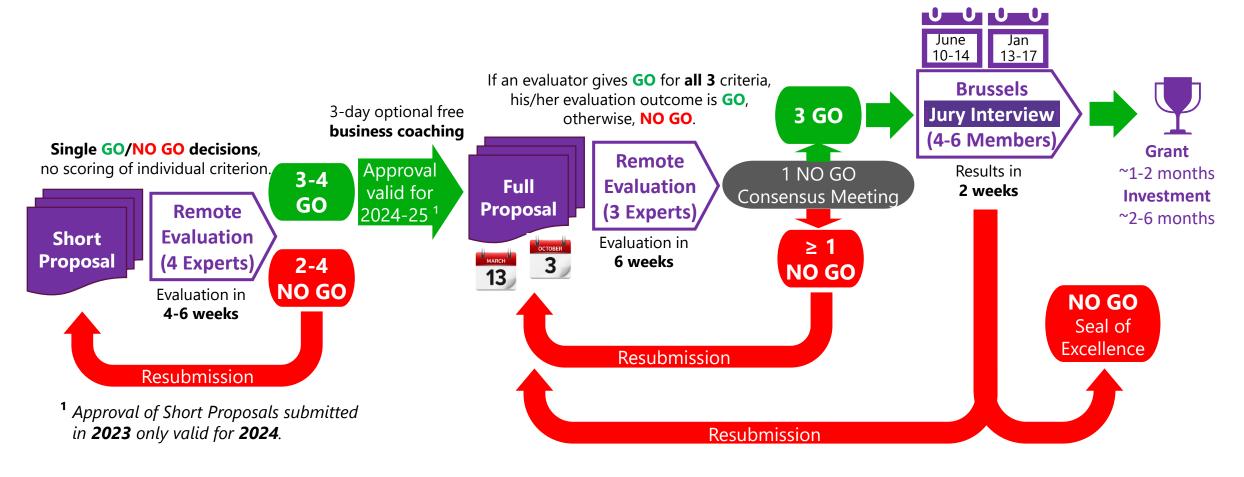

Grant only and Blended finance funding,
with Equity-only restricted to previous grant-only beneficiaries
Lump sum grant < €2.5M 70% financing for TRL 5-8 & Investment < €15M
Business Acceleration Services

# Which projects are suitable?

## How to apply?

Submit a **Short Proposal** any time & **Full Proposal** by cut-off dates

# EIC Accelerator Application and Evaluation Process

- Evaluator/Jury pools are different for each evaluation step. Evaluators cannot access previous submissions/results.
- 3 resubmissions limit in total at any stage for the same(improved) proposal from the same entity during Horizon Europe. Submissions in **previous** years **do not** count. Concurrent submission/implementation **not** allowed.
- If **investment** decision **not made** during -or **1 year** after- the grant project; then, an **equity-only application** needed.

# EIC Accelerator Application Steps and Content

#### **Short Application**

# **Full Application**

#### าร)

- Administrative info PART A (online forms)
- Proposal Form PART B (max. 12 pages)
- Pitch Deck (max. 10 slides)
- Pitch Video (max. 3 min.)
- Consent for data sharing

Funding type and amount in Short Proposal are only indicative.

- Administrative info PART A (online forms)
- Proposal Form PART B (max. 50 pages)
- Pitch Deck
- Pitch Video (max. 3 min.)
- Freedom-to-Operate Analysis
- Data Management Plan
- Financial Plan & Equity needed
- Detailed Budget Table for lump sum
- CVs of key personnel
- Letters of Intent
- Annex (optional, max. 10 pages)
- Consent for data sharing

#### Download

**Full Application Forms & Templates** 

#### **Jury Interview**

- Presentation w/ Full Application
   Pitch Deck (10 minutes)
- Q&A session (35 minutes)

EIC Fund can invest up to €2M above the requested amount; also, follow on within max. €15M limit per beneficiary.

# Fast Track & Plug-in schemes to skip Short Proposal stage

#### Proposals funded by eligible programs/bodies may directly submit to Full Proposal stage

#### Fast Track: Eligible EU programs/bodies

- EIC Pathfinder, Transition, and Accelerator grant-only beneficiaries
- Selected EIT Knowledge and Innovation Communities (KICs)
- EUREKA SME funding schemes under Eurostars-2 Joint Program, and Partnership on Innovative SMEs

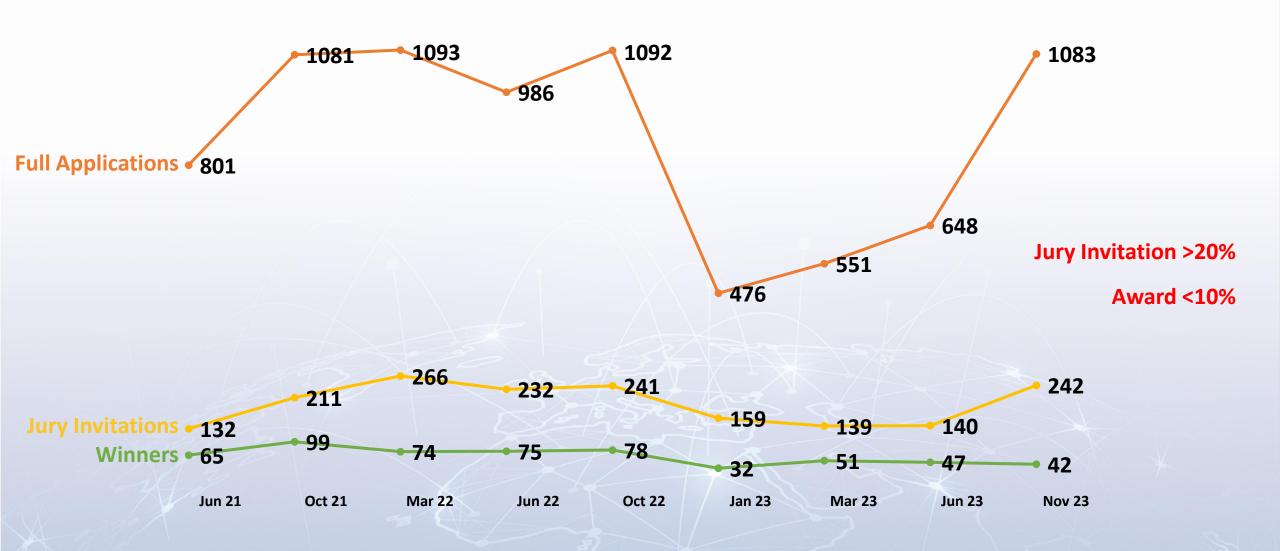

<u>Plug-in</u>: EC-certified eligible national and regional public programs/bodies

<u>List of programs</u> certified for Plug-in scheme

- Eligible funding programs/bodies review the projects against **similar criteria** used for EIC Accelerator **Short Proposal** stage.
- Successful applicants are invited to prepare a Full Proposal within next 12 months.
- The rest is **the same**, i.e., business coaching, resubmission limits, and Full Proposal evaluation.

# EIC Accelerator Submission and Funding Statistics

# TRL – Technology Readiness Level

- TRL1 basic **principles** observed
- TRL2 technology **concept** formulated
- TRL3 **experimental** proof of concept
- TRL4 **technology** validated in **lab**
- TRL5 technology validated in **relevant environment** (protocols for phase 1 clinical testing)
- TRL6 technology **demonstrated** in relevant environment (exploratory phase 1 trials)
  TRL7 **system prototype** demonstration in operational environment (phase 2 clinical trial)
  TRL8 system **complete** and qualified (phase 3 clinical trials and regulatory approval)
- equity —TRL9 actual system proven in operational environment
  - Utilization of TRLs do not preclude support for non-technological innovations.
  - Market/Business readiness should also be considered, as necessary.
  - There may be important differences between technological fields.

# Lump sum grant

<u>Lump sums</u> are **fixed amounts** defined in the Grant Agreement.

**Detailed Budget Table** with cost estimations; one lump sum share per Work Package.

No reporting of actual costs/resources; same Proposal Form, pre-financing, and technical reporting.

**Paid** upon **completion** of the **Work Packages**, not based on the **outcomes**.

14										
15										

Cost estimations must still be **reasonable** and **eligible**, particularly for purchases and subcontracting. **Ineligible** costs may lead to **reduction of the grants** even during or after the project duration.

# Business Acceleration Services (BAS)

- ☐ Free, co-financed, and paid
- ☐ Off-the-shelf and tailor-made
- Available to all EIC Beneficiaries, HE Seal of Excellence holders, Accelerator Full Proposal Applicants, <u>Women TechEU</u> founders, and <u>EIC Scaling Club</u> companies

#### Coaches, Mentors, Expertise, and Training

<u>Coaching Program</u><u>Women Leadership Program</u><u>Tech to Market Program</u>

#### **Global Partners**

Corporate Partnership Program

Innovation Procurement Program

International Trade Fairs and Soft Landing Program

Co-investment Support Program

EIC Scaling Club

#### **Innovation Ecosystem and Peers**

**Ecosystem Partnership Program** 

# EIC Accelerator Challenge Calls - 2024

#### **Human Centric Generative AI made in Europe**

- Foundation language and multimodal 'frontier' models
- Smaller foundation models in specific domains

#### **Enabling virtual worlds and augmented interaction to support the realization of Industry 5.0**

- AR/VR solutions
- Wearables, smart textiles, and smart objects
- Spatial computing and location mapping

#### **Enabling the smart edge & Emerging quantum technology components**

- Novel semiconductor components and integrated smart systems
- Fault-tolerant quantum computing hardware, sensors, communication devices

#### Food from precision fermentation and algae

- Bacteria, yeast, or fungi-based fermentation systems
- Macro-and micro-algae based novel aquaculture systems

€50M budget for each Challenge Call
Choice specified in Full Application.
No concurrent submission to multiple Calls.
Switching between Open/Challenge Calls permitted.
No obligation to submit to a Challenge call.
Challenge Call topics change annually.

#### Monoclonal antibody(mAbs)-based therapeutics for new variants of emerging viruses

- Development of broad-spectrum and targeted mAbs-based therapies
- Rapid and simplified testing, production, and administration of mAbs-based therapies

#### Renewable energy sources (RES) and their whole value chain

- Manufacturing of RES that produce heat and electricity from renewable sources
- Technologies for exploring, mining/processing, synthesizing materials, excluding CRM, that are part of RES
- Technologies for recycling or re-use of RES components

# Strategic Autonomy and European Economic Security

Provisions to protect Europe from **economic security risks** and to maintain **strategic autonomy**:

- Exclusion of potential Accelerator grant beneficiaries (in)directly controlled by (a legal entity established in) a non-associated third country from Challenge Calls relating to Artificial Intelligence and quantum, if necessary. Ownership and Control Assessment for Open Call beneficiaries within the scope of the above-mentioned Challenge Calls.
- ➤ Inclusion of economic security safeguards in Investment Agreements for Accelerator equity beneficiaries in 4 priority technology areas: Advanced semiconductors, Artificial Intelligence, quantum, and biotech, if necessary.
- ➤ Requirement for all EIC beneficiaries to inform EISMEA if IP generated by EIC projects is proposed to be licensed/transferred to an entity in a non-associated third country.

Provisions for **EU-classified information** and **security sensitive information** will be included in the grant agreement, when necessary.

Project: Acceleration Towards LEO Automatic Space Safety

The ATLAS² project aims at developing the first service of Space Safety. Based on a network of 7 radars deployed around the world with a new design for scanning and tracking, capable to detect debris down to centimetric size, and through fusing data from its network and other sources, Look Up Space aims at extending the lifetime of satellites through collision avoidance and decreased number of collision avoidance manoeuvres of satellites. This service will be applicable to small satellite fleets as well as to whole satellite constellations. This will provide the EU with the first sovereign solution for space safety, dedicated to coordinating all stakeholders and automatising processes.

Topic:

Project Type: Full blended

Total budget: 3.444.985 €

EU Contribution: 17.411.490 €

Call ID: HORIZON-EIC-2023-ACCELERATOR-01

Partners:

• Look Up Space (Coordinator) - France

# Winning Project - Pitch Video

This video was made for the EIC. It gives an overview of what Crypto Quantique is doing in 2023 and what stage of growth we are at as well as an overview of the company.

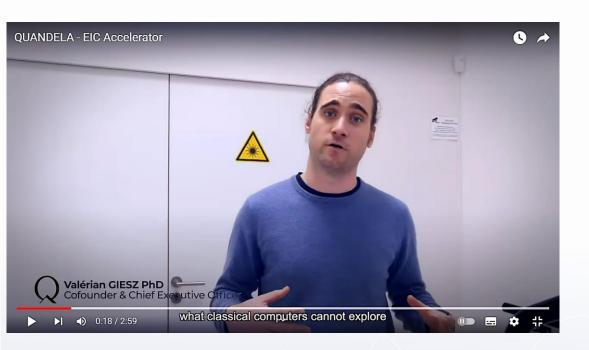

#### Hear from:

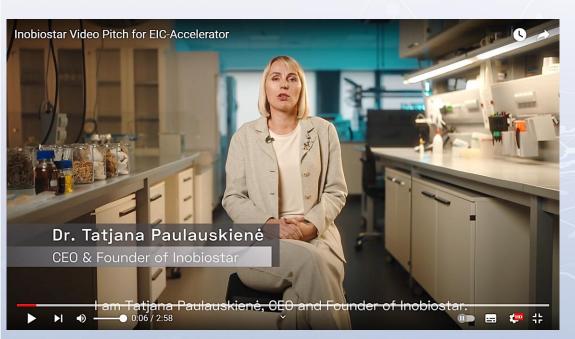

John Hartley, Chief Commercial Officer, Patrick Camilleri, VP of Engineering and Co-Founder Shahram Mossayebi, CEO and Co-Founder

Crypto Quantique has created the world's most secure end-to-end IoT security platform. At its heart is the world's first quantum-driven semiconductor hardware IP, called QDID, that generates multiple, unique, unforgeable cryptographic keys for devices manufactured using standard CMOS processes. The keys do not need to be stored and can be used independently by multiple applications on demand. When combined with cryptographic APIs from the company's universal IoT security platform, QuarkLink, the solution creates a secure bridge between silicon, device, software, and solutions provider.

Crypto Quantique - Moving to the Next Stage of our Journey

EIC Pitch Video submitted by CRYPTO QUANTIQUE LIMITED. QRYPTON project won grant-only support at March 2023 cut-off.

#### <u>EIC Pitch Video</u> by QUANDELA (SME Instrument Phase 1 grantee - 2018)

#### sepoqc

"Scalable Entangled-Photon based Optical Quantum Computers" project won **blended finance** support at **June 2022** cut-off.

quandela.com

<u>EIC Pitch Video</u> by INOBIOSTAR (Women TechEU Winner – 2023)

#### InnoAerogel

"Sustainable deep tech innovation for aquatic oil spills clean-up" project recently submitted for EIC Accelerator support.

inobiostar.com

#### Lessons Learned

- Pick a big market and a global problem
- Sell the problem before the solution
- Show the product, demo, and/or piloting
- Introduce your team members, office, and/or research lab
- There is not one single recipe to win

# EIC Accelerator Full Proposal Remote/Interview Evaluation Criteria

## Excellence (1/3)

**Excellence of the company:** Does the company have a clear mission and vision and partnerships to realize their ambition to scale up?

**Novelty and breakthrough character of the innovation:** Does the innovation have breakthrough character and a high degree of novelty compared to existing solutions, and <u>for Challenge Calls</u>, is it addressing the <u>specific objectives</u> of the challenge?

**Timing:** Is the timing right for this innovation in terms of users, societal or scientific of technological trends and developments?

**Technological feasibility:** Has the technology been developed in a **safe**, **secure**, and **reliable** manner? Has it been adequately **assessed**, **validated** or **certified**?

**Intellectual Property Strategy:** Does your company have the necessary IPR to ensure **freedom to operate** and adequate **protection of the idea**?

# EIC Accelerator Full Proposal Remote/Interview Evaluation Criteria

# **Impact (2/3)**

**Competitiveness and demand**: Is the innovation better than what the competition proposes, and is the solution bringing sufficient added value to trigger demand from potential customers?

**Market development**: Does the innovation have the potential to develop **new markets** or significantly **transform** existing ones? Has the **potential market** for the innovation been adequately **quantified**, including conditions and **growth rates**? Is the expected **market share** acquisition reasonably **ambitious** and **reachable**?

**Commercialization strategy**: Is there a convincing and well thought-through strategy for commercialization, including regulatory approvals/compliance needed, time to market/deployment, and business and revenue model? Are the key partners identified and committed?

**Scale up potential**: Does the innovation have the potential to scaleup the company? For grant only support, can the applicant demonstrate access to the resources needed to commercialize and scale-up the innovation.

**Broader impact:** Will the innovation, if successfully commercialized achieve positive broader societal, economic, environmental, or climate impacts, and <u>for Challenge Calls, does it have the potential to contribute to the expected outcomes and impacts set out in the Challenge?</u>

# EIC Accelerator Full Proposal Remote/Interview Evaluation Criteria

# Level of risk, implementation, and need for Union support (3/3)

**Team**: Does the team have the **capability** and **motivation** to implement the innovation proposal and bring it to the market? Is there **a plan** to acquire any **critical competencies** which are currently missing, including **adequate representation of women and men**?

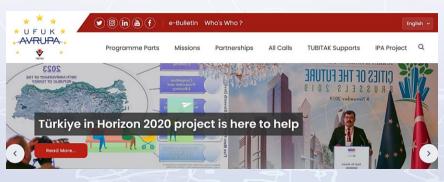

**Risk level of the investment (for applicants requesting an investment component):** Does the nature and level of **risk of the investment** in your innovation mean that European market actors are **unwilling to commit the full amount** that is needed **without an investment from the EIC Fund**? Is there **evidence** that market actors would be willing to invest, either alongside the EIC or at a later stage?

**Risk mitigation:** Have the main risks (e.g., tech, market, financial, regulatory) been identified, together with measures to take to mitigate them?

**Implementation plan:** Is there a clear implementation plan with defined milestones, work packages, and deliverables, together with realistic resources and timings?

# Thank you! Best wishes! Any comments or questions?
