Your Project Response

Despite a recent tendency for the research and innovation performances of individual countries in the EU to converge, sharp differences among Member States still remain.

..

The insufficient critical mass of science and lack of centres of excellence having sufficient competence to engage countries and regions strategically in a path of innovative growth, building on newly developed capabilities

..

By putting national budgets under constraint, the ongoing financial crisis is threatening to widen gaps

..

Relation to the Work programme 2/2

WIDESPREAD-04-2017	Your Project Response
<p>Exploiting the potential of Europe's talent pool by maximising and spreading the benefits of research and innovation across the Union is vital for Europe's competitiveness and its ability to address societal challenges in the future.</p>	..
<p>Help countries and regions that are lagging behind in terms of research and innovation performance to attain a competitive position in the global value chains</p>	..

Concept and methodology, quality of the coordination and support measures 1/5
