H2020 Secure Societies 2019 Info Day and Brokerage Event

Info   **How it works?**   Pitch Session   Presentations   Venue   Contacts   FAQ

A matchmaking event is a quick and easy way to meet potential cooperation partners. People meet at high speed. 20 minutes are usually enough to build connections, then the bell rings and the next talk starts.

How does it work?

1. Register and publish your collaboration wishes

2. Browse the participant list and book meetings with companies you are interested in

3. A couple of days before the event you receive your meeting schedule

When	What
28.01 - 05.03.2019	Registration for the event (may be closed earlier if the venue capacity is reached)
08.03.2019	Deadline for PITCH submission
25.02 - 10.03.2019	Booking of BILATERAL MEETINGS

REGISTRATION
Closed since 5 March 2019

LOCATION
Hotel Metropole Brussels

Information on the latest policy development

Dear Marc,

I'm Tasos (Anastasios) Karakostas a post-doctoral research fellow at Information Technologies Institute (ITI) [1] of the Centre for Research and Technology Hellas (CERTH) [2]. In particular, I'm of the senior researchers in the Multimedia Knowledge and Social Media Analytics Laboratory [3] and I'm leading the effort of submitting a proposal addressing the call SU-DRS03-2018-2019-2020 [4] regarding pre-standardisation for the….

We have met in a previous community of users, I think and we participated in the +++ proposal this year

The main idea of the proposal is to propose integrated solutions that will provide tools and strategies …. The proposal writing is coordinated by CERTH and includes very strong partners of the domain such as: ….

Our lab is very active in the security domain by coordinating beAWARE (http://beaware-project.eu/) and participating to other security projects such as ROBORDER (http://cordis.europa.eu/project/rcn/209949_en.html)

I believe that your organization will be ideal to support various aspects of this project.

I would be happy to further discuss the idea and the potential involvement of your organization.

Thank you and best regards,

Tasos

Anastasios (Tasos) Karakostas, PhD
