

Technical Assistance for  
Turkey in Horizon 2020 Phase II

**International Study Visit to CERTH,  
Thessaloniki: H2020 Secure  
Societies**

**Dr. Tolga Sönmez**  
**Havelsan**

Thessaloniki- Greece, 2019

## PERSONNEL~1800

## SUBSIDIARIES

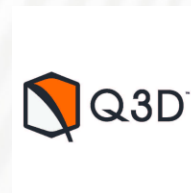

**HTR**  
Maintenance Repair and  
Operations

**STM**  
Engineering and Consulting

**CORNEA AVIATION**  
Cabin Interior Systems and  
Internet Services

**QUANTUM 3D**  
Simulation & Training

## MAIN ACTIVITY AREAS

### Command Control Systems

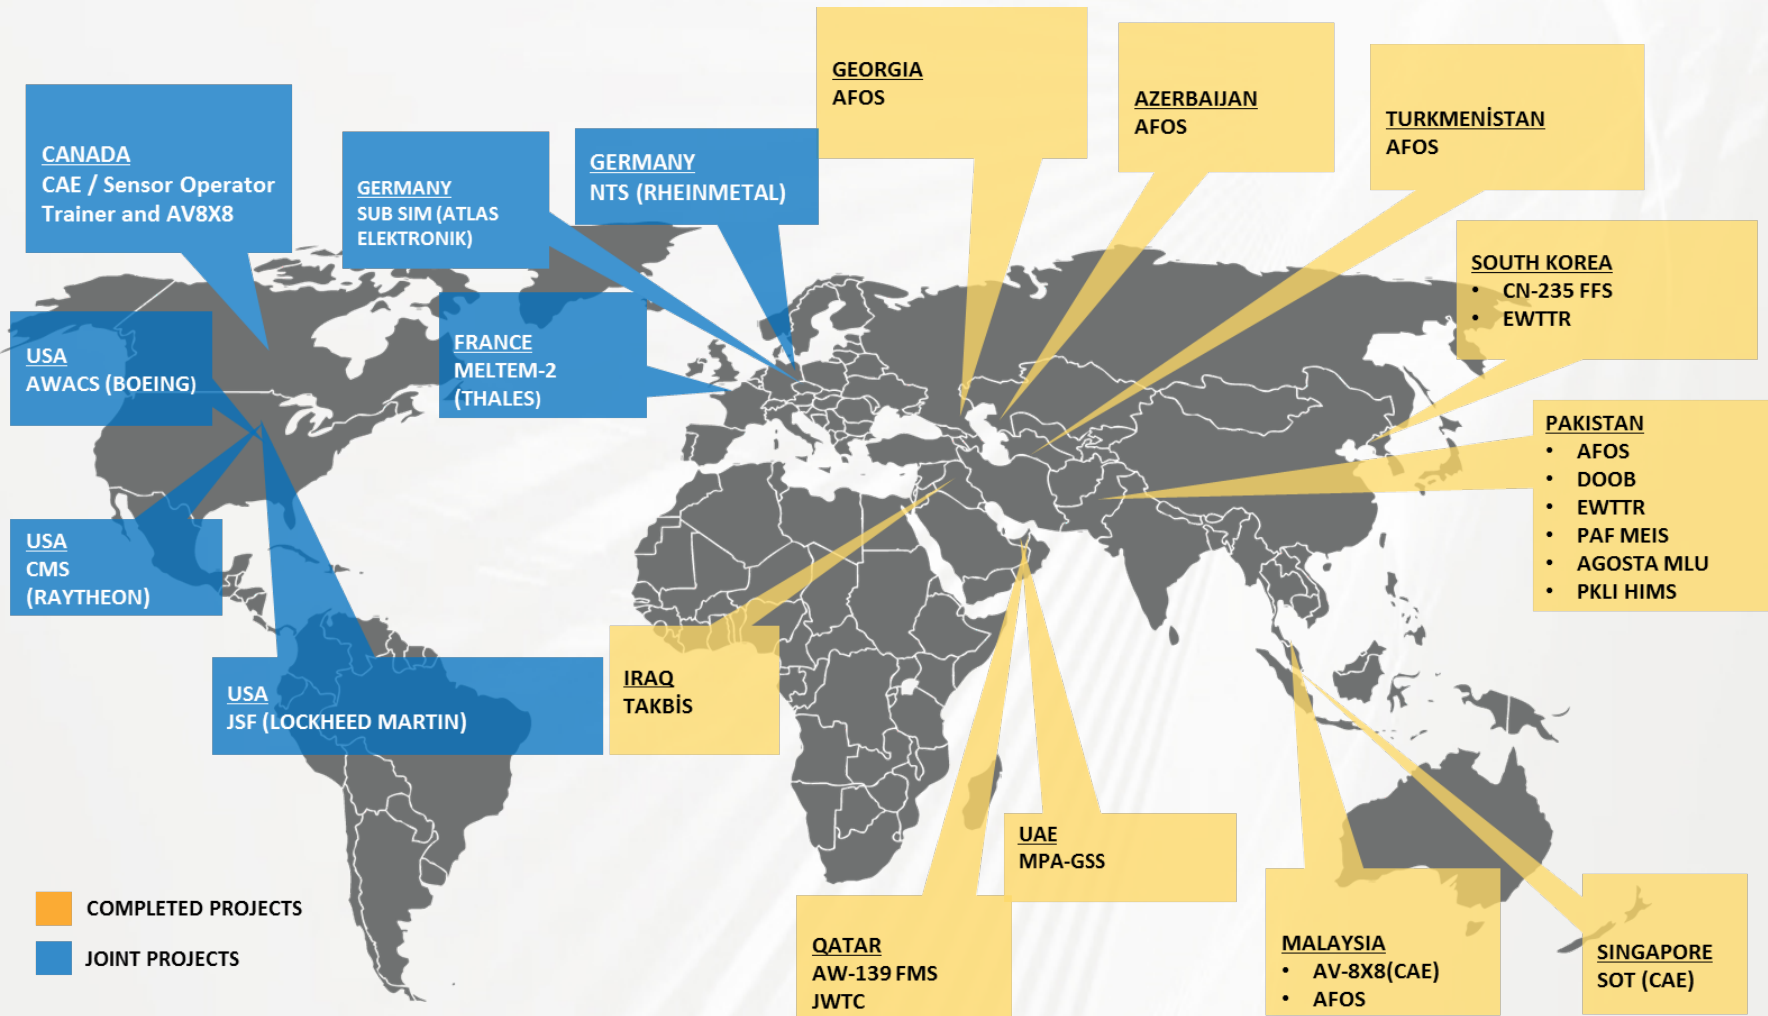

### Training, Simulation, Test & Evaluation Systems

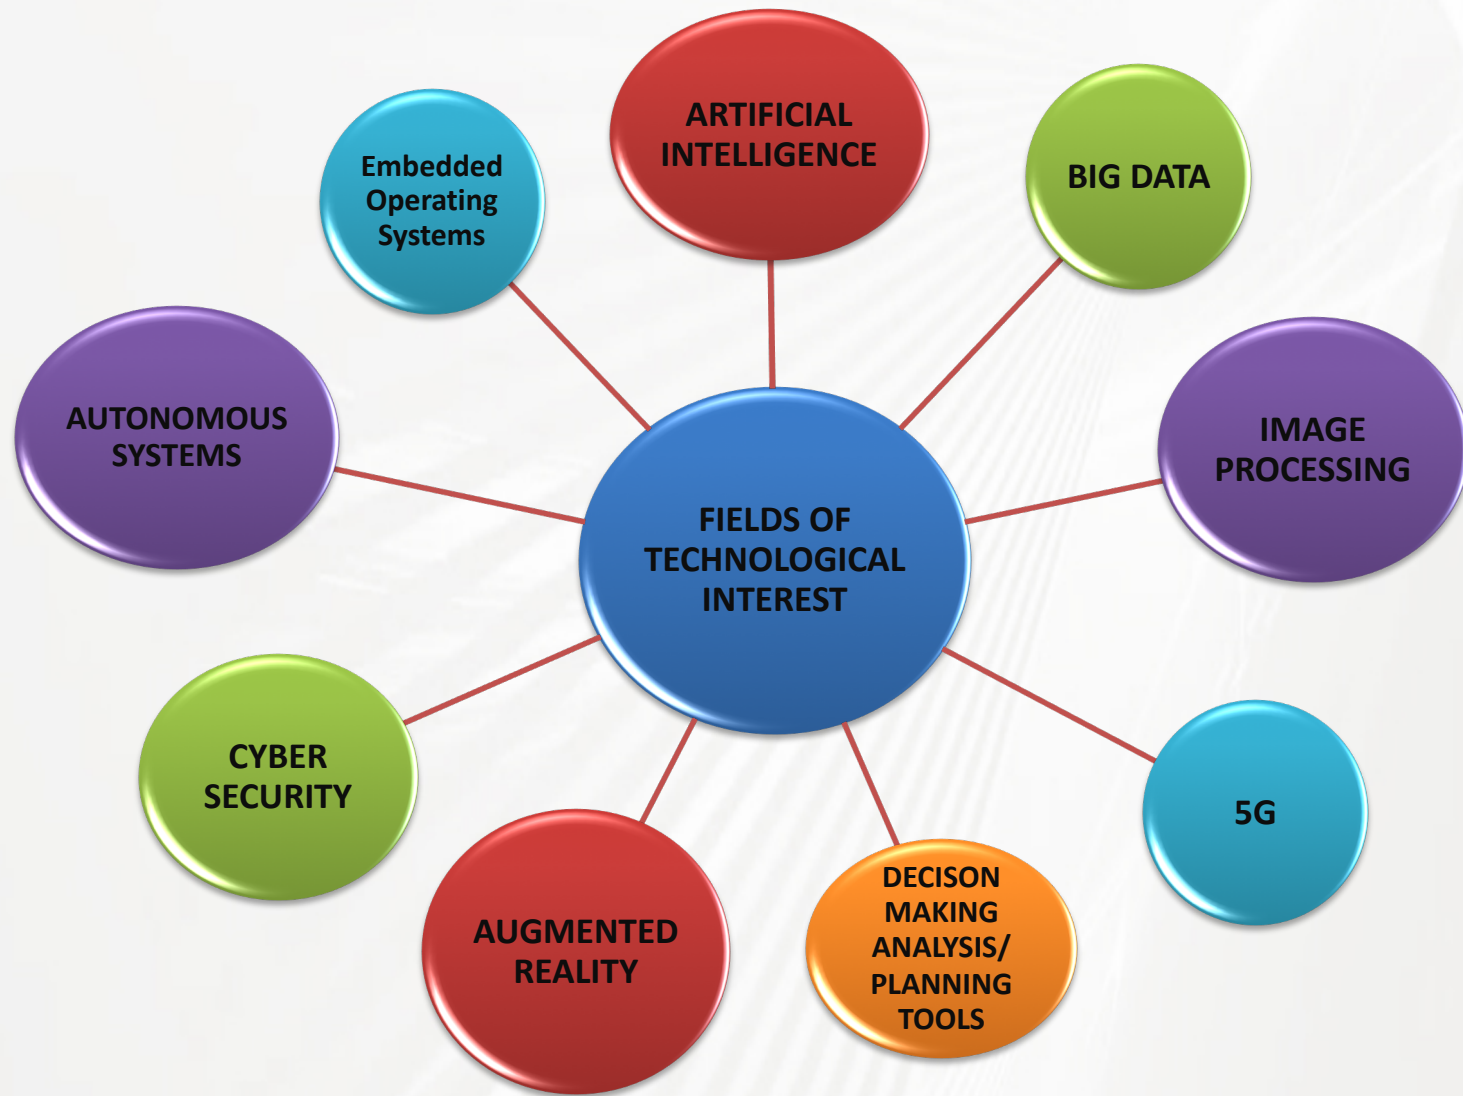

### Management Information Systems

### Security Systems

## Signal processing

- Advanced signal processing applications
- Kalman filters, particle filters, estimation and optimization algorithms
- Modelling, hardware and software simulators

## Navigation Systems

- INS/GPS systems
- Indoor localization
- Terrain Aided Navigation Systems
- Integration of MEMS inertial sensors
- Capturing human motion data, classification

## Artificial Intelligence

- Deep Neural Networks, CNN, RNN
- AI algorithms applied on motion data, bio mechanics, anomaly detection
- Health applications using motion data

## Sensor Fusion

- Multi sensor fusion
- Processing and fusion of radar, electro-optic, AIS, sonar sensors
- Tracking of targets in a single fused picture

## Image processing

- Earth observation
- Processing, tracking and classification of images taken from satellites
- Hyperspectral image analysis
- 3D modelling
- Fusion of images with different types

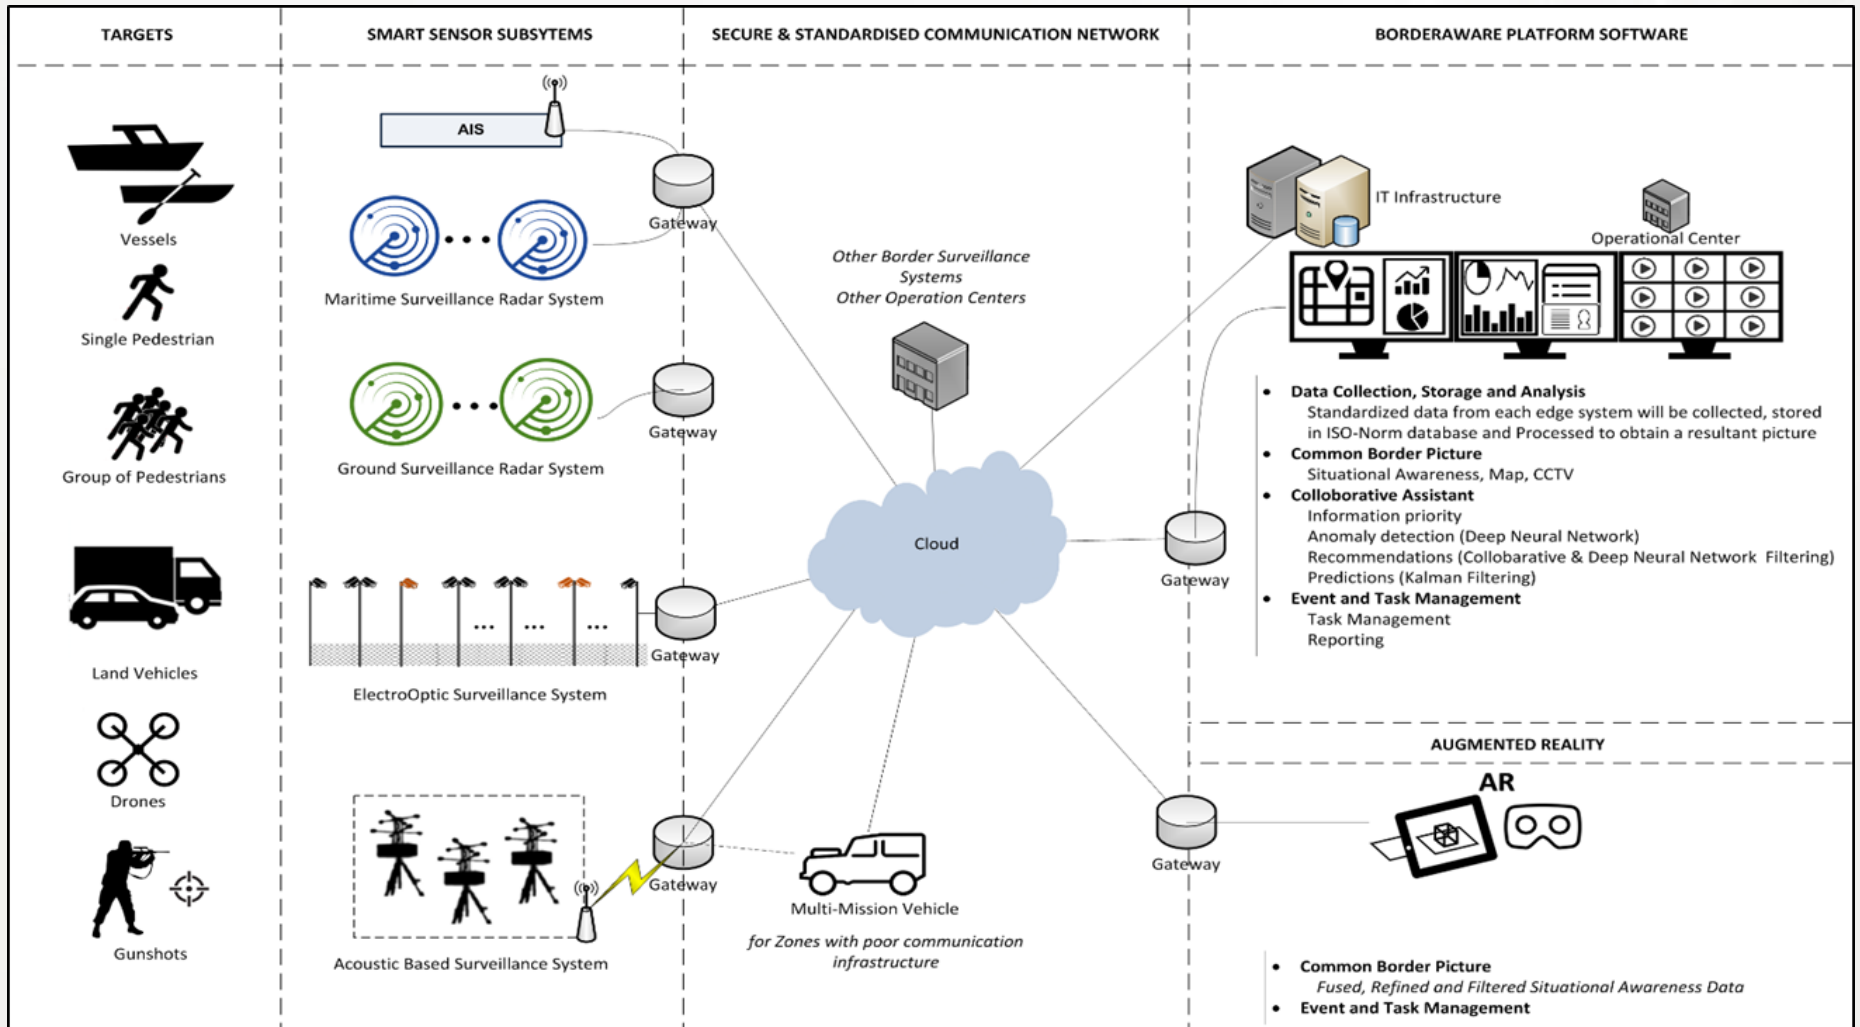

## Possible topic/topics you wish to participate in

- **SU-DRS02-2019**
- SU-DRS03-2019
- SU-DRS04-2019
- SU-DRS05-2019
- SU-FCT01-2019
- SU-FCT02-2019
- SU-FCT03-2019
- SU-BES01-2019
- **SU-BES02-2019**
- SU-BES03-2019
- SU-DS03-2019
- SU-DS05-2019

Technical Assistance for Turkey in Horizon 2020 Phase II  
International Study Visit to CERTH, Thessaloniki: H2020 Secure Societies

SU-BES02-2018-2019-2020

Technologies to enhance border and external security

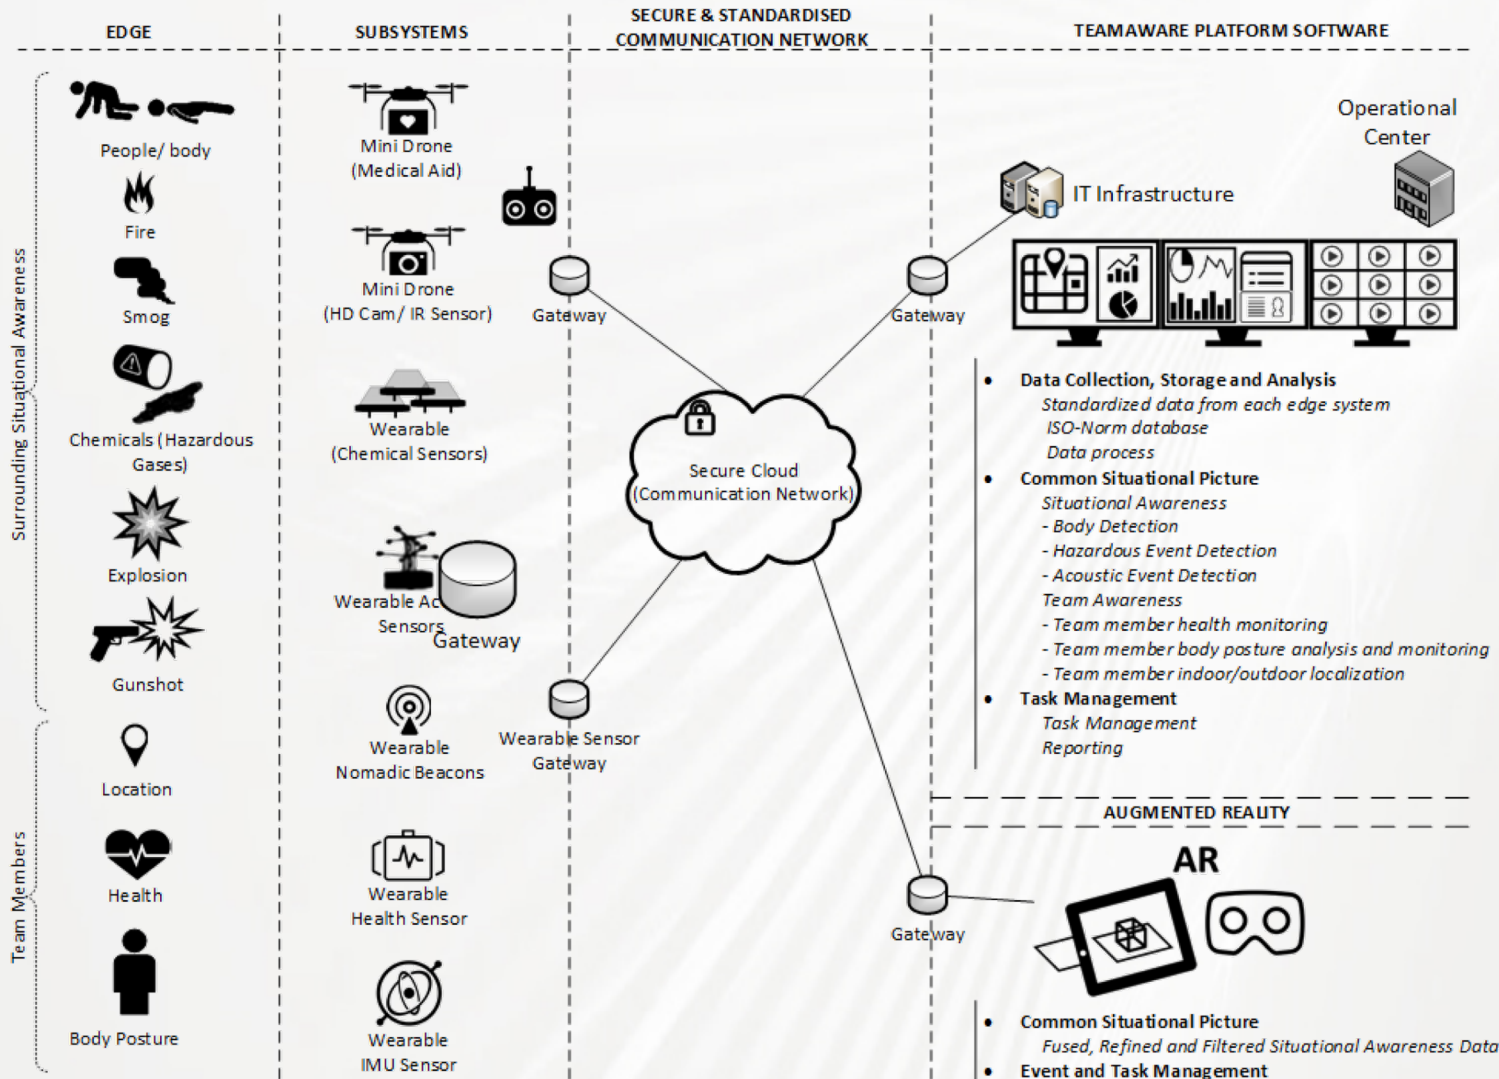

**SU-BES02-2018-2019-2020**

## **Technologies to enhance border and external security**

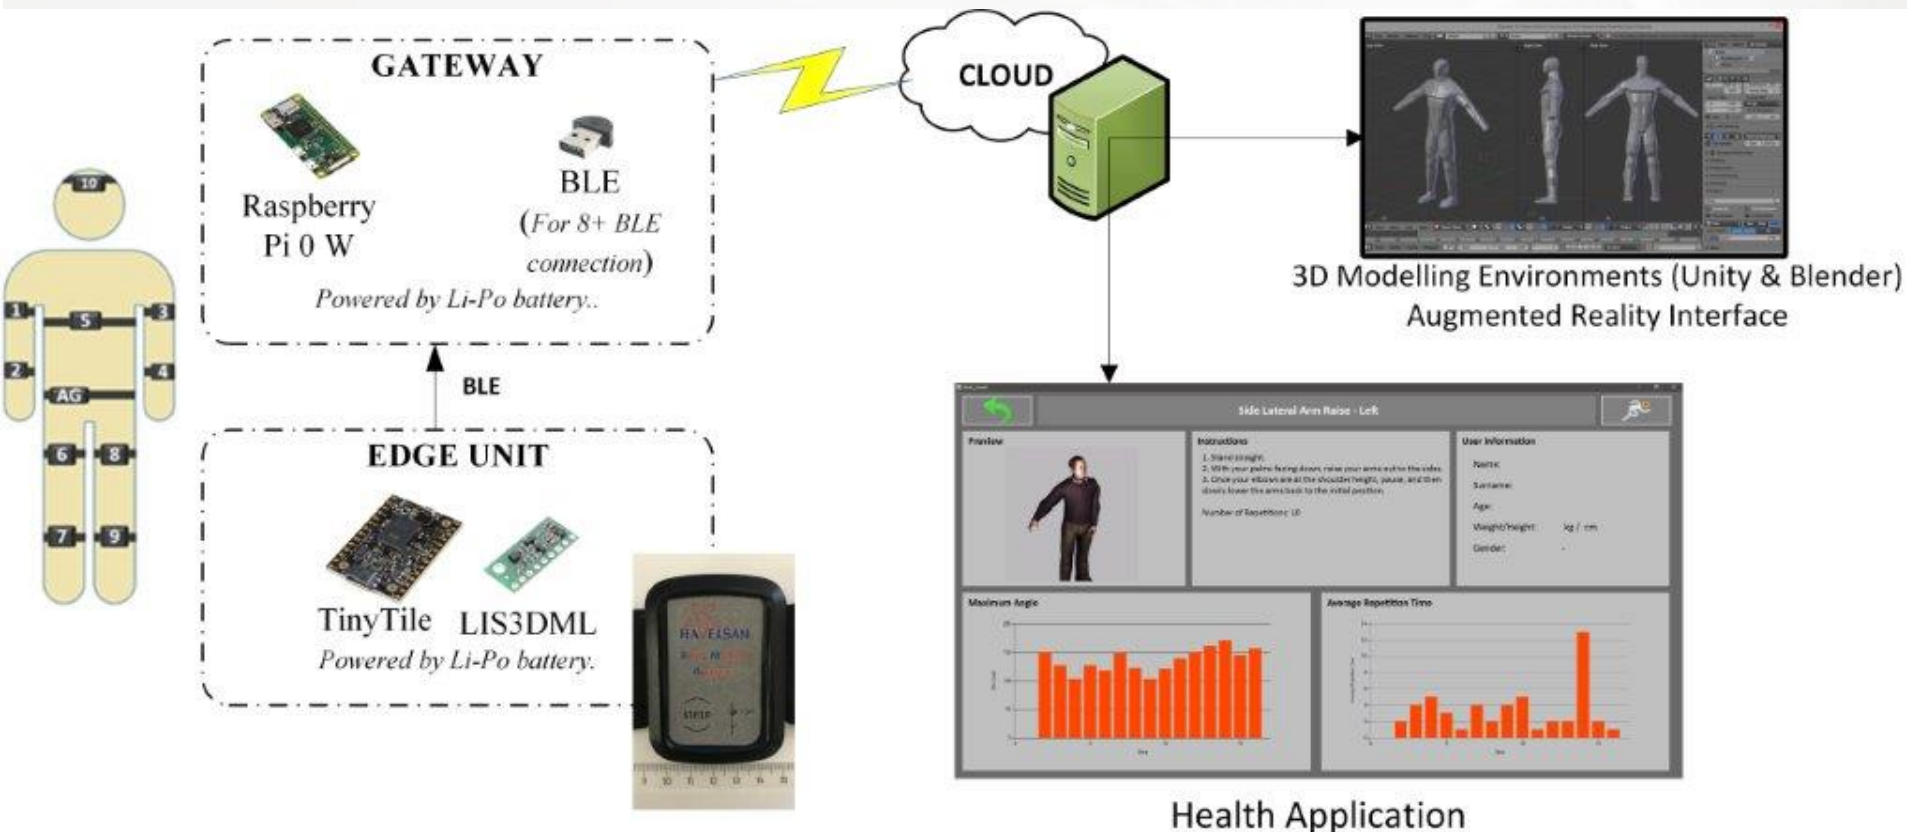

### **Sub-topic-Open**

- *Objectives:*
  - *To detect vehicle, human movements, gunshots, UAVS*
  - *To visualize the environment using augmented reality*
- *Expected results*
  - *Develop an infrastructure for detection of illegal passing of humans and vehicles*
- ***Evaluated in 2018 : above threshold (12.5/15.0)***
  - *Proposal will be updated for 2019*
  - ***Border authorities are needed as partners***

## SU-DRS02-2018-2019-2020 Technologies for first responders

# Body Posture Tracking

- Bio-analytics
- Body posture classifier: walking, lying, climbing, running, coughing etc.

## SU-DRS02-2018-2019-2020 Technologies for first responders

- **Coordinator:** Havelsan
- **Partners:** Consortium has been finalized.
  - *Image processing / deep Learning*
  - *Indoor localization & navigation*
  - *Wearable technologies*
  - *Sensor and Data fusion*
  - *Internet of things*
  - *Power management/ optimization*
  - *Communication and network systems, cloud technologies*
  - *Drone Operator*
  - *End Users: First responders, firefighters, security forces, disaster management authorities*

## **Contact**

***Dr. Tolga SÖNMEZ***  
***[tsonmez@havelsan.com.tr](mailto:tsonmez@havelsan.com.tr)***

***Havelsan: Large company in Turkey***  
**Proposal Coordinator, WP leader**

- Tolga Sönmez has been graduated from Bilkent University electrical engineering department in 1995.
- He completed his M.S. and Ph.D. studies in University of Maryland College Park in electrical engineering in 1998 and 2003.
- During his Ph.D. Study he has worked on optimal sensor scheduling and tracking algorithms in sonar applications.
- After that, he worked in Advanced Acoustic concepts in USA
- Then he continued to work in Tübitak Sage in Ankara to develop integrated navigation systems.
- He recently joined Havelsan Inc. R&D team to work on sensor fusion projects. He is leading Modelling and Sensor Technologies team.
- He is interested in sensor fusion, sensor networks and integrated navigation systems.

Thank you for your attention
