HORIZON EUROPE

THE EU RESEARCH &
INNOVATION PROGRAMME

2021 - 2027

Dr. Martha Cahill PhD, MBA

National Contact Point for Health , State Representative for the Innovative Health Initiative (IHI)

Horizon Europe Health Opportunities

- Health Program – Opened 22nd June 21
- Cancer Mission – Q3/Q4
- Innovative Health Initiative (IHI) - Q3/Q4
- European Innovation Council (EIC)
 - Health Challenges
- Future Partnerships (co-funds) – 2021 -2024

Horizon Europe Strategic Planning

- **Horizon Europe** - budget of €95.5 billion for 2021 – 2027
- **Strategic Plan** - defines the strategic orientation of the research and innovation for 2021-2024 - **focus on a climate neutral and green Europe & Digitalisation**
- **Defined Plan for Health** : Prepared, increasing resilience to threats and disasters, high-quality healthcare, safe trusted, cost effective tools, technologies and digital solutions, health promotion, disease prevention, diagnosis, treatment, monitoring, decision-making, breakthrough health technologies, strategic autonomy in essential medical supplies and digital technologies, SME's and economic growth.....
- **Missions** - 5 Missions tackling some of our greatest EU and global challenges
 - **The Cancer Mission**
- **Partnerships** – Greater Alignment with Horizon Europe Strategic Plan
PPP– Single Basic Act /Legislation and governance Structure – **Innovative Health Initiative (IHI)**

Health Cluster : Trends and Hot Topics

Health Cluster : Structure of the Work Program

- 2 year work program
- Topics are grouped under each of the six destinations
- They can be single or two stage topics
 - Two stage topics are anticipated to be larger in size, more MS participants but a smaller number of applications.
- The Individual topic budgets now confirmed. i.e., budget/project
- The instrument involved are highlighted : RIA, CSA, PCP, PIP, IA

Health Cluster : Structure of the Work Program

- **Research and innovation actions (RIA)**

- Collaborated Project
- Consortium of at least 3 independent legal entities
- Established in 3 MS or Associated States
- Focus on research and innovation

- **Coordination and Support Action (CSA)**

- Activities contributing to the objects of Horizon Europe
- Coordination of co-funding activities
- Widening participation & Spreading excellence

Many Coordination and support actions (CSA's) are Building blocks for future co-funds, partnerships

Topic Structure & Identifiers

HORIZON-HLTH-2022-STAYHLTH--01-05- two-stage: Prevention of obesity through the life course

Conditions related to this topic : Budget details have now been added & include €/Topic, no of projects & € /project

Year of the topic: 2022

Action type: RIA

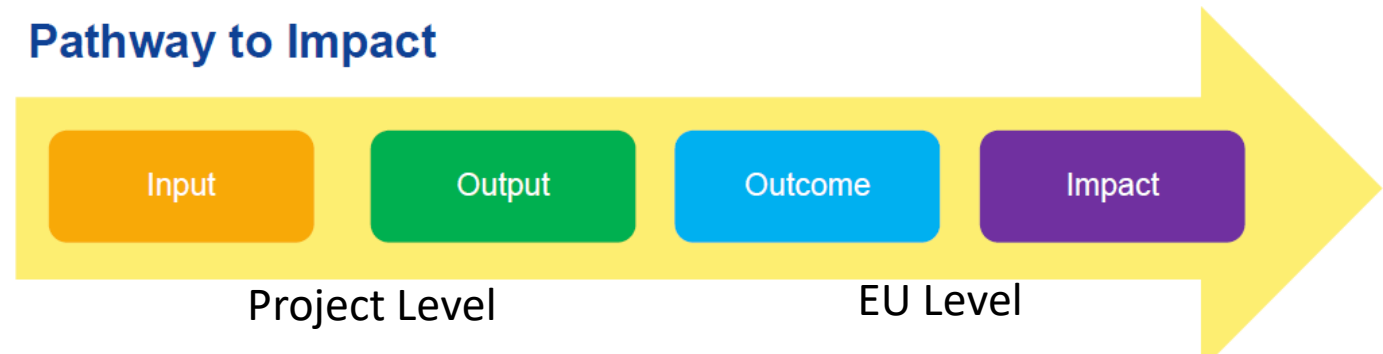

Expected Outcome:

Scope: What is included or excluded!

Note:

- Pay particular attention to the expected outcomes and impacts of the destination.
- Take note of referenced documents or policies. These are often in the footnotes.
 - eg., <https://www.who.int/cancer/palliative/definition/en/>

Pathway to Impact

Cancer Related Topics in the 2021-2022 WP

- The Cancer Mission and Cancer topics will be included in a separate program which is currently under development.
- Some topics included in the Health work program are not restricted to any particular disease area can include Cancer research **but you need to read the text carefully.**

Topics that specifically exclude Cancer

HORIZON-HLTH-2022- TOOL-11-01: Optimising effectiveness in patients of existing prescription drugs for major diseases (except cancer) with the use of biomarkers,

HORIZON-HLTH-2022-DISEASE-06-two-stage-02: Development of new effective therapies for rare diseases -Rare infectious diseases and rare cancers will not be considered in this call.

HORIZON-HLTH-2022-DISEASE-06-02-two-stage: Pre-clinical development of the next generation immunotherapies for diseases or disorders with unmet medical need -

Footnote: Excluded from the scope are the **preventive vaccines**, the immunotherapies for **rare diseases** and the **repurposing of drugs** as they are covered by other topics in the HE research programme 2021-2022. **Research on cancer immunotherapies is excluded** as it will be covered by the Mission on Cancer. Therapeutic vaccines are included.

6 Destinations : Targeted Impacts in the Health Cluster

- 1. Staying healthy in a rapidly changing society**
- 2. Living and working in a health-promoting environment**
- 3. Tackling diseases and reducing disease burden**
- 4. Ensuring access to innovative, sustainable and high-quality healthcare**
- 5. Unlocking the full potential of new tools, technologies and digital solutions for a healthy society**
- 6. Maintaining an innovative, sustainable and globally competitive health industry**

Associated Countries

- The negotiations formally start in February with discussions on specific terms and conditions. They aim to complete the process with signed agreements before the summer.
- There are 16 non-EU countries, including Switzerland, Norway, Israel and Iceland who are associate members of the EU research programme.
- Depending on the terms of the deal, it may take many months before it could be cleared.

The UK is now an Associated Country

- Top level agreement reached that they would participate in the Horizon Europe
- Need to be considered at least for this year.

Mission Areas

EU missions: bold goals to be achieved within a set timeframe aimed at tackling some of our greatest global challenges.

Mission Documents

https://ec.europa.eu/info/news/top-experts-propose-potential-eu-missions-further-consultation-europeans-2020-jun-25_en&pk_campaign=rtd_news

Why - The Cancer Mission

- ❖ 2.6 million diagnosed with Cancer each year in EU27
- ❖ Cancer kills 1.2 million people in EU27 each year

Future risks due to

- Aging populations
- Unhealthy lifestyles
- Unfavourable environment conditions
- Current COVID 19 pandemic

25%
increase
by 2035

Other issues

- Large variation in cancer treatment across Europe
- Inequality in access to treatment and care.

The Cancer Mission

The Challenges

Prevention

Diagnosis

Treatment

**Survivorship,
palliative care**

- Prevention – Tobacco, Environment
- Early Diagnosis
- Screen programs
- Guidelines/best practice
- Rare forms of Cancer
- Centres of excellence

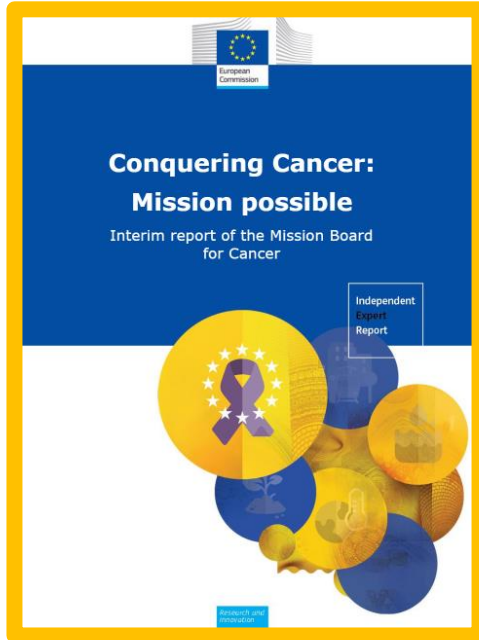

- Networks
- Registries
- Social issues – low income/ patient access
- Quality of life for Survivors – jobs, bank, Insurance issues & stigma

**Intervention
areas for actions**

Cancer Mission - 13 Recommendations

1. Launch UNCAN.eu – a European Initiative **to Understand Cancer**
2. Develop an EU-wide research programme to identify (poly-) **genic risk** scores
3. Support the development and implementation of effective cancer **prevention strategies** and policies within Member States and the EU
4. Optimise existing screening programmes and develop novel approaches for **screening and early detection**
5. Advance and implement **personalised medicine** approaches for all cancer patients in Europe
6. Develop an EU-wide research programme on early diagnostic and **minimally invasive treatment technologies**
7. Develop an EU-wide research programme and **policy support to improve the quality of life** of cancer patients and survivors, family members and carers, and all persons with an increased risk of cancer
8. Create a European **Cancer Patient Digital Centre** where cancer patients and survivors can deposit and share their data for personalised care.
9. Achieve **Cancer Health Equity in the EU across** the continuum of the disease
10. Set up **a network of Comprehensive Cancer Infrastructures** within and across all EU Member States to increase quality of research and care
11. **Childhood cancers and cancers in adolescents** and young adults: cure more and cure better
12. **Accelerate innovation and implementation of new technologies** and create Oncology-focused Living Labs to conquer cancer
13. **Transform cancer culture**, communication and capacity building

Relationships between
Mission's goal, areas of action
and recommended actions

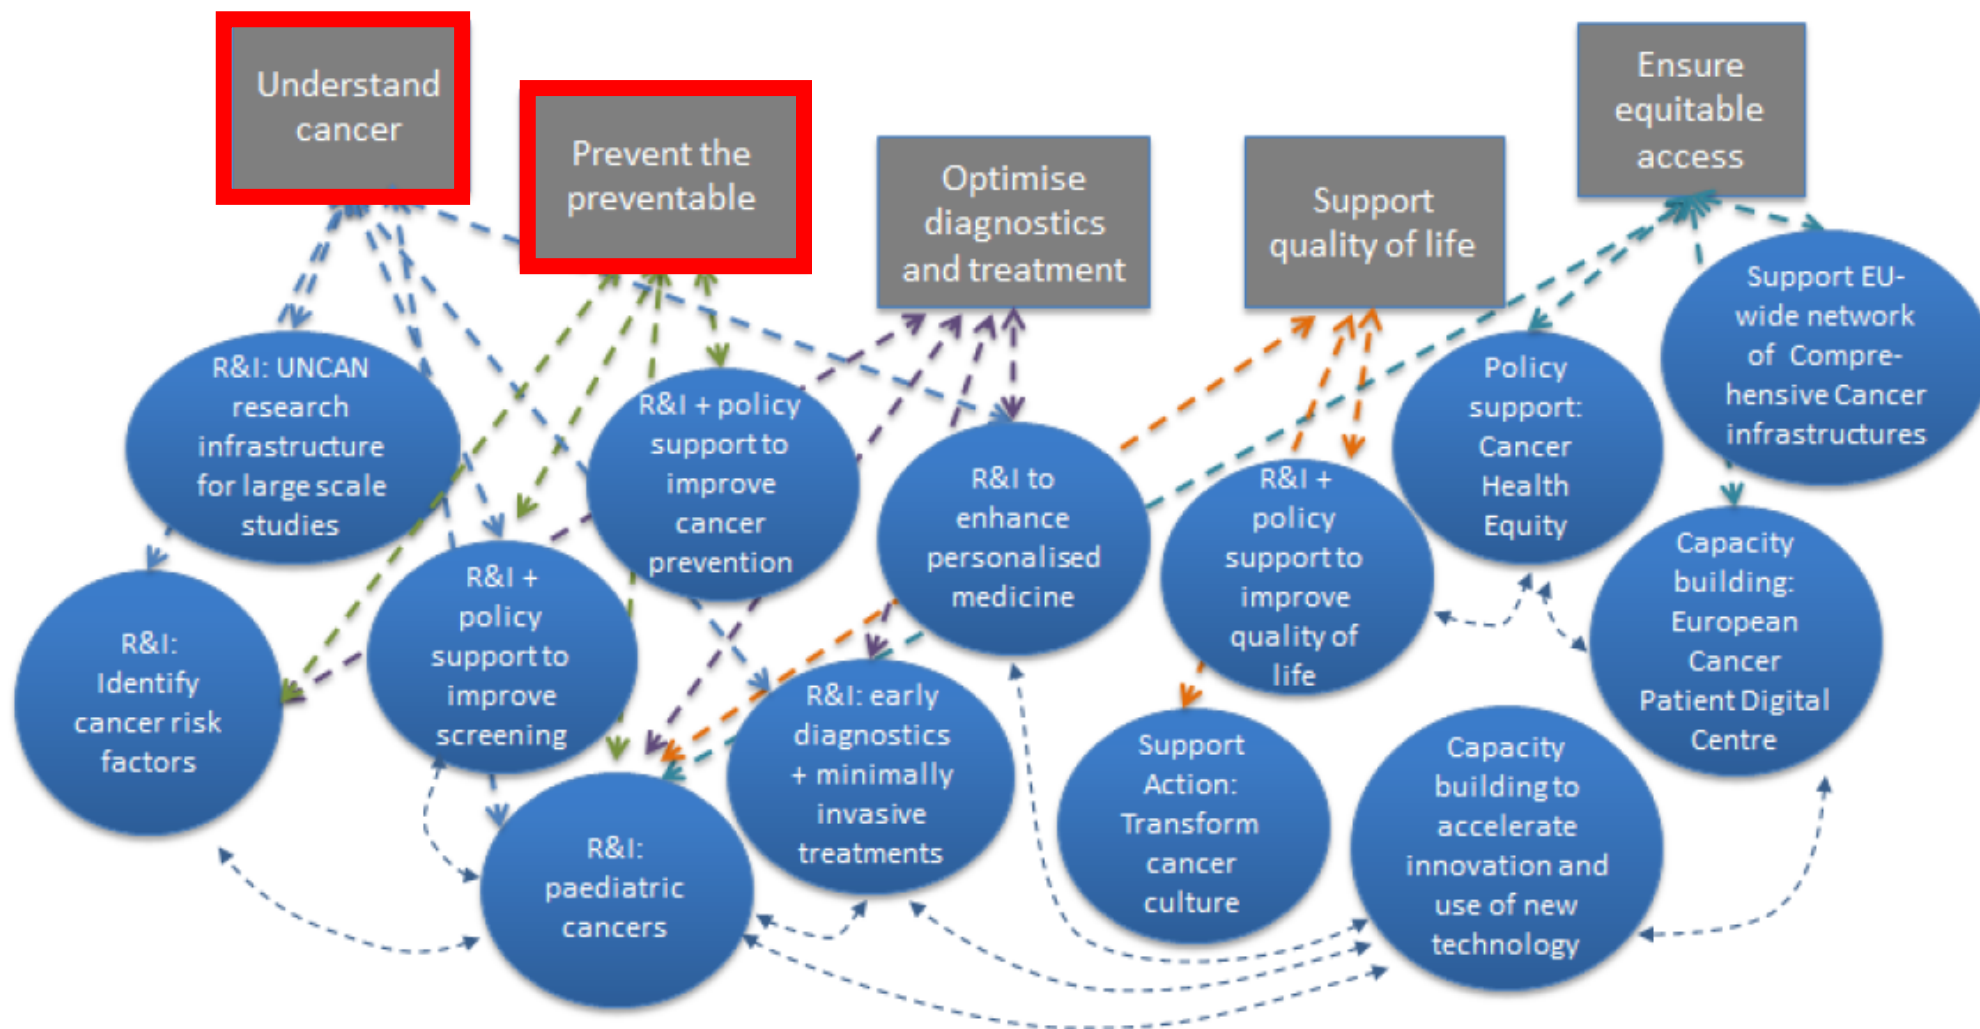

The Goal

Areas of Action

Recommended
Actions

Conquer cancer: mission possible

By 2030, more than 3 million lives saved, living longer and better

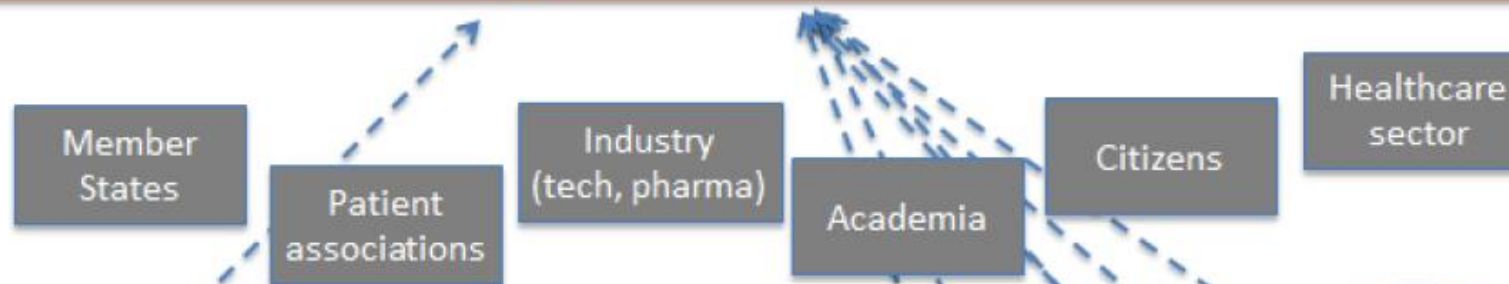

Recommended
Actions

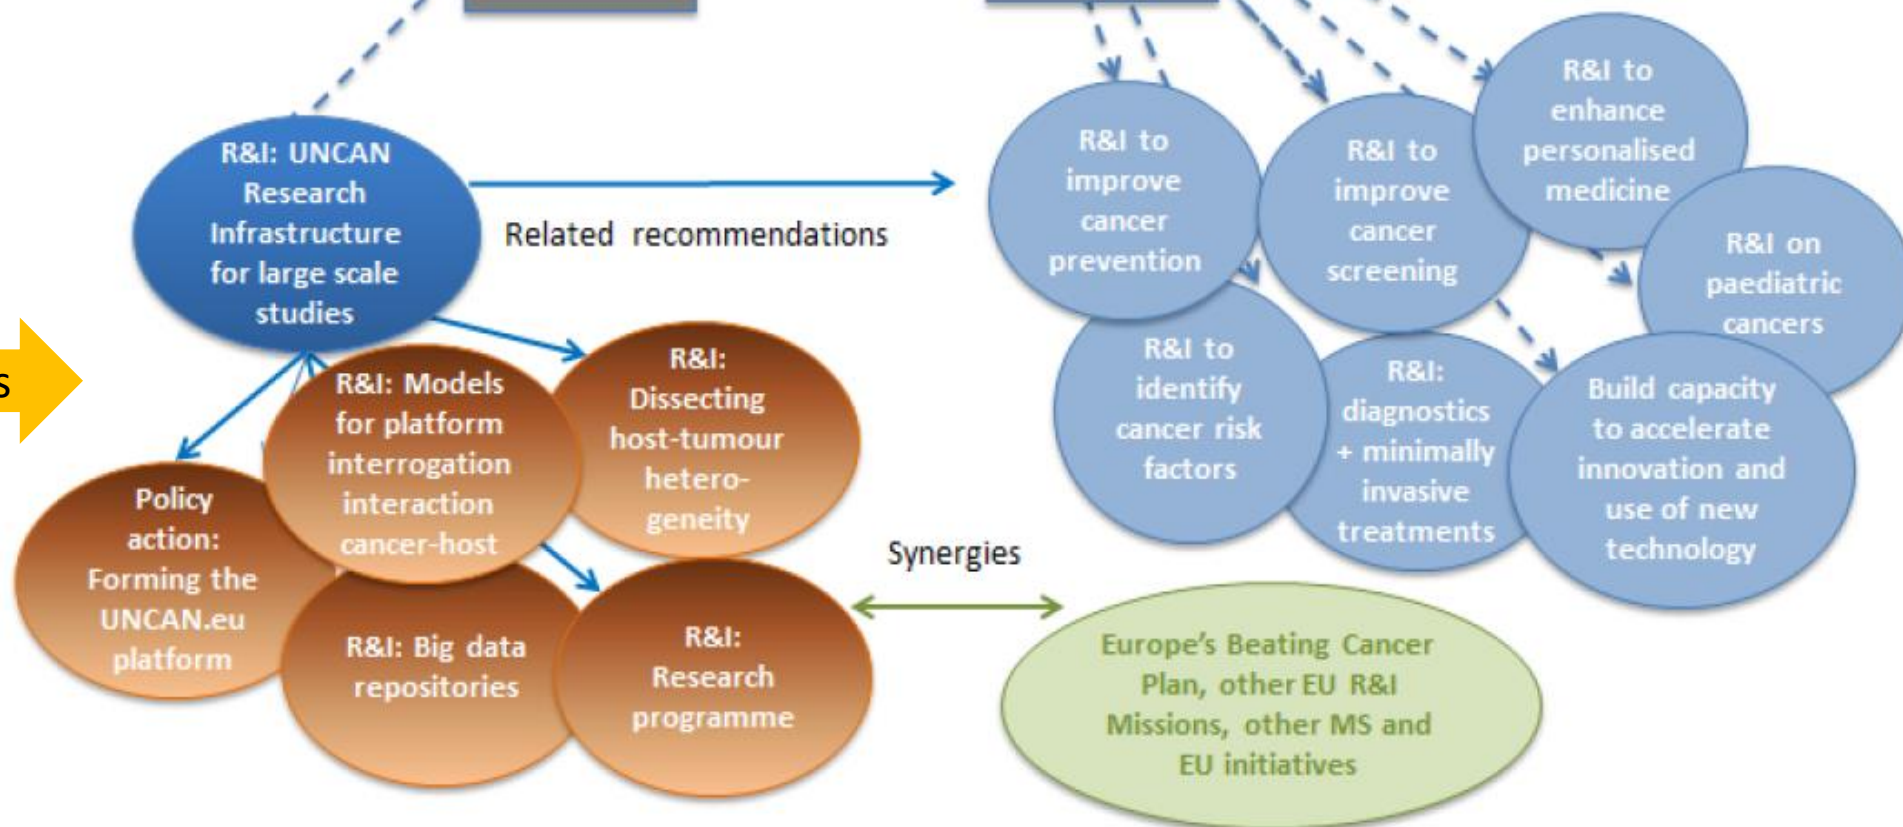

Action area: Understand cancer, its risk factors and impact

Provide a comprehensive and dynamic view of the initiation, development and spread of cancer leveraging the UNCAN.eu Research Infrastructure

Actors

Specific Actions

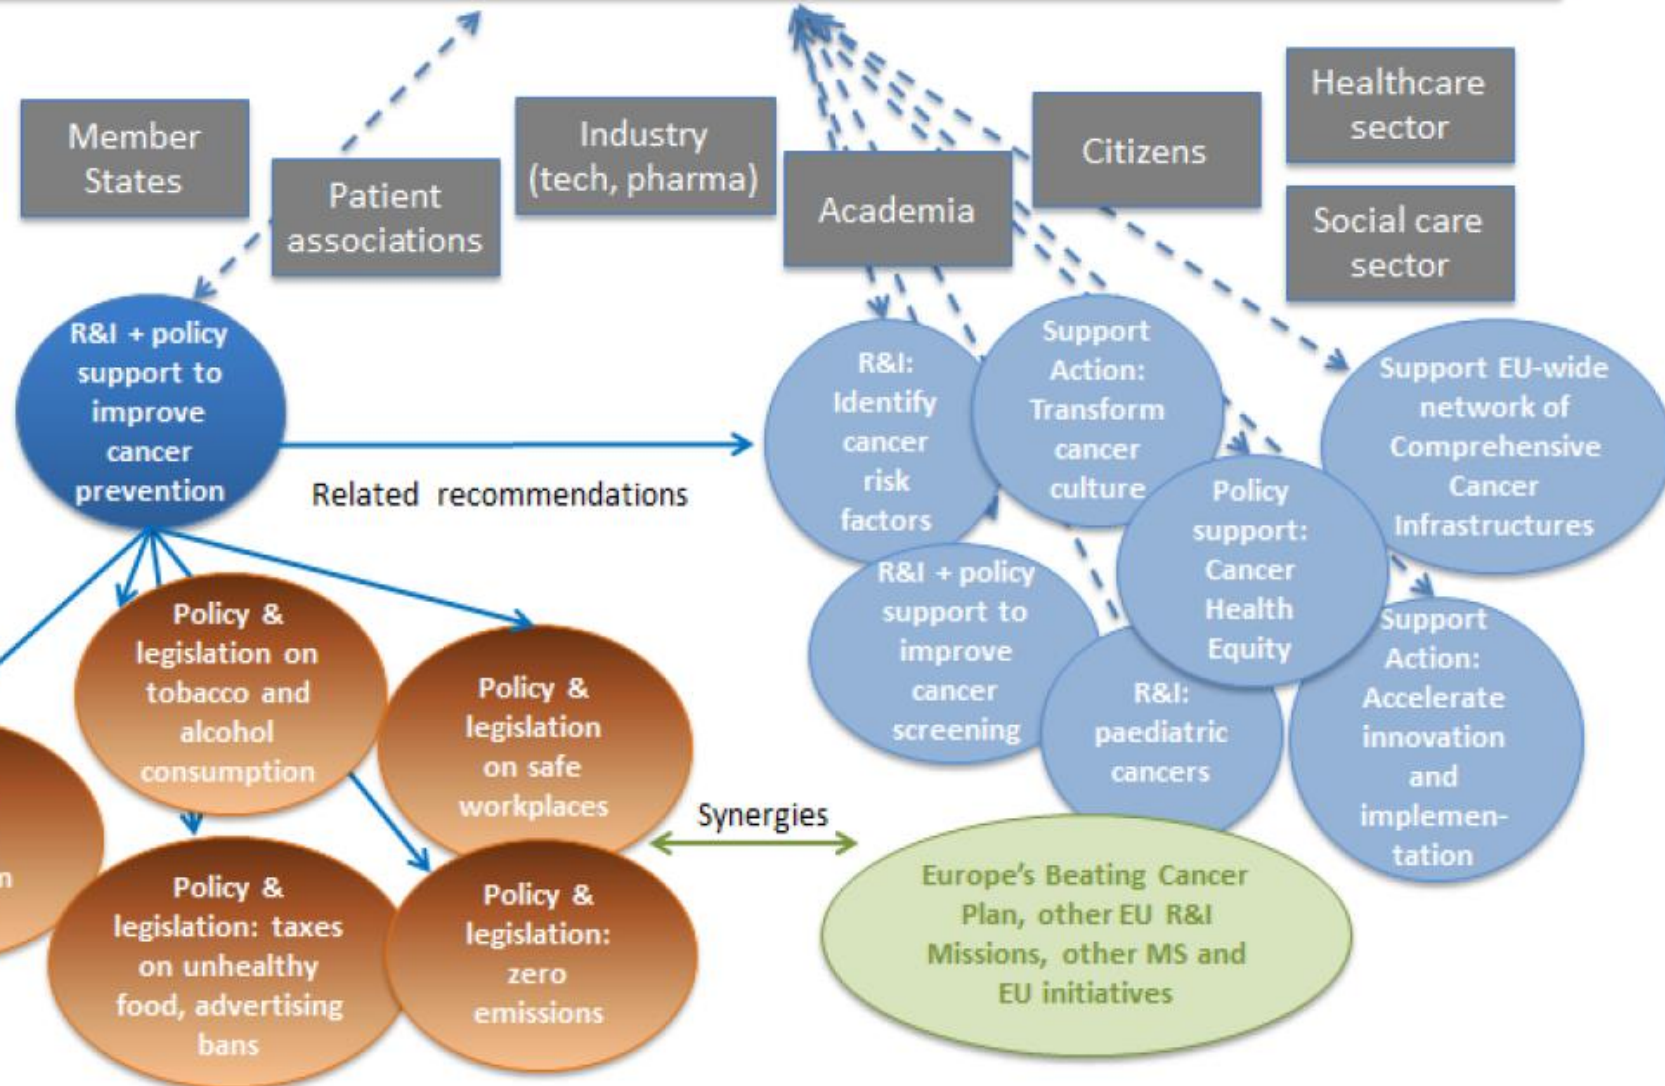

Recommended
Actions

Action area **Prevent** what is preventable

By 2030, all EU Member States will have implemented comprehensive cancer prevention strategies, resulting in a reduction of preventable cancer cases of at least 25 %

Actors

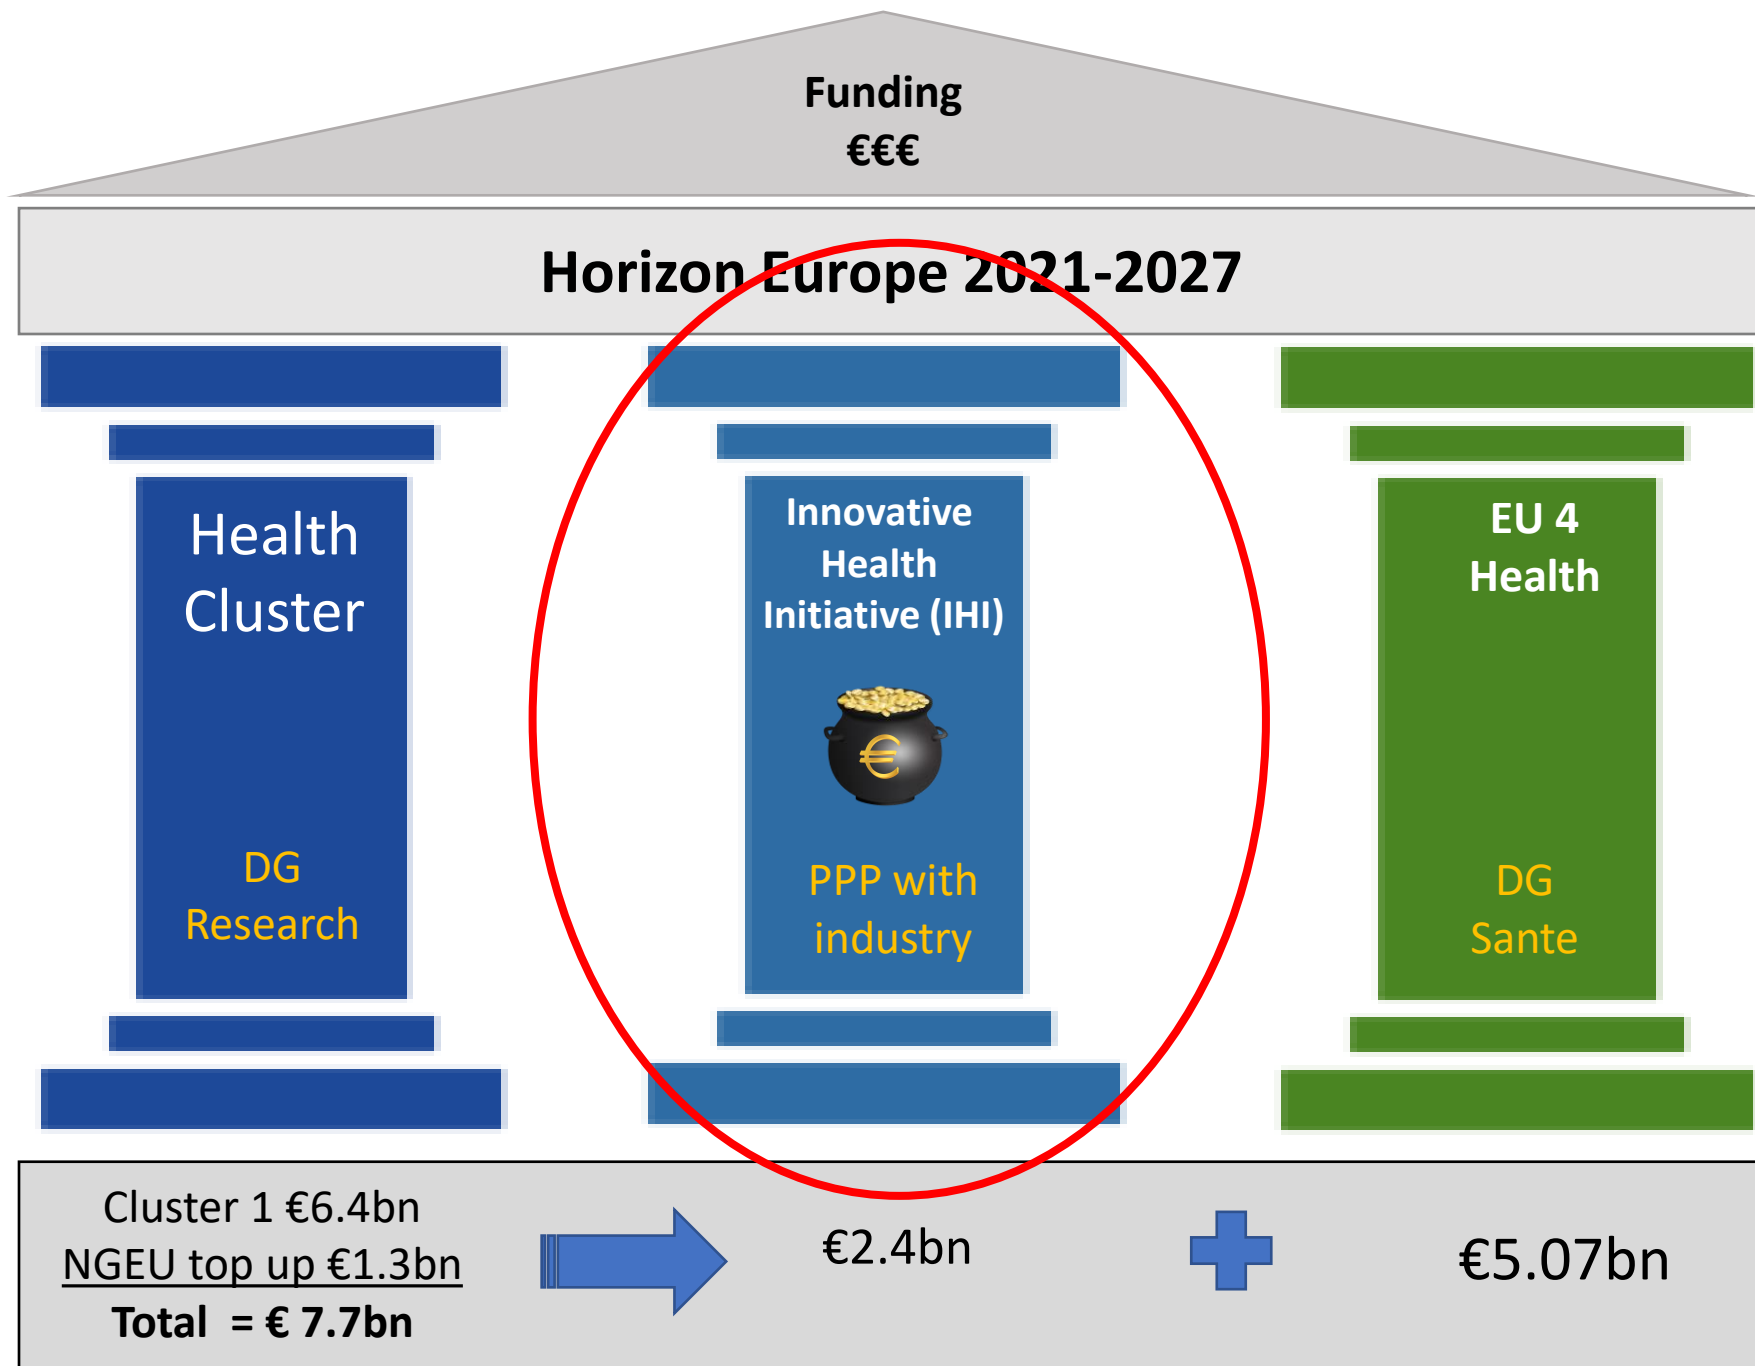

Specific Actions

Recommendations to Actions to Specific Actions

- The Recommendations form a coherent Framework of proposed Actions
- These will be developed further in the second half of 2020 into specific actions.

Features of Specific Actions

- Ambitious
- Measurable
- With a tight realistic timeframe
- Actors to carry out the actions will be identified.
