Sustainability and Environmental Education Chair at International Council of
Associations for Science Education (ICASE).

HORIZON-MISS-2021-CLIMA-02-05: Local engagement of citizens in the co-creation of
societal transformational change for climate resilience

Description of the Organization

- Muğla Sıtkı Koçman University (MSKU) is a state university in Turkey with over 40,000 students and 1,700 academic staff.
- The university has 21 faculties, 4 graduate schools and institutes, 3 applied schools, 15 vocational schools, and 51 research centres.
- MSKU have already been involved in significant national and international research including FP7, Marie-Curie, Erasmus+, m-Era.net projects, and COST actions.
- Related actions and projects:
 - British Council Newton-Kâtip Çelebi Funding “Research Environment Links”- «Past-Future Forests»
 - The Action Plan On Conservation Of Campus Biodiversity Of Muğla Sıtkı Koçman University
 - Success in the UI GreenMetric Overall Rankings 2021
 - Specific Calls and Research Projects on Sustainability
 - Sustainable Green Campus Coordinatorship

Description of your research interest

- MSKU Faculty of Education, through research, promotes new pedagogical innovative tools and methodologies to develop useful strategies in the field of creating awareness towards climate change and education for sustainability through cooperation with public and private schools and organisations, at local and international level, and values to give scientific support to the specific activities carried out and achieve mutual learning.
- The research team involves researchers who have expertise in education for sustainability and awareness towards climate change. At MSKU, we collaborate with researchers who have an interest and research on the different aspects of climate change and sustainability as well.

Project Idea
