# Three Key Evaluation Criteria...

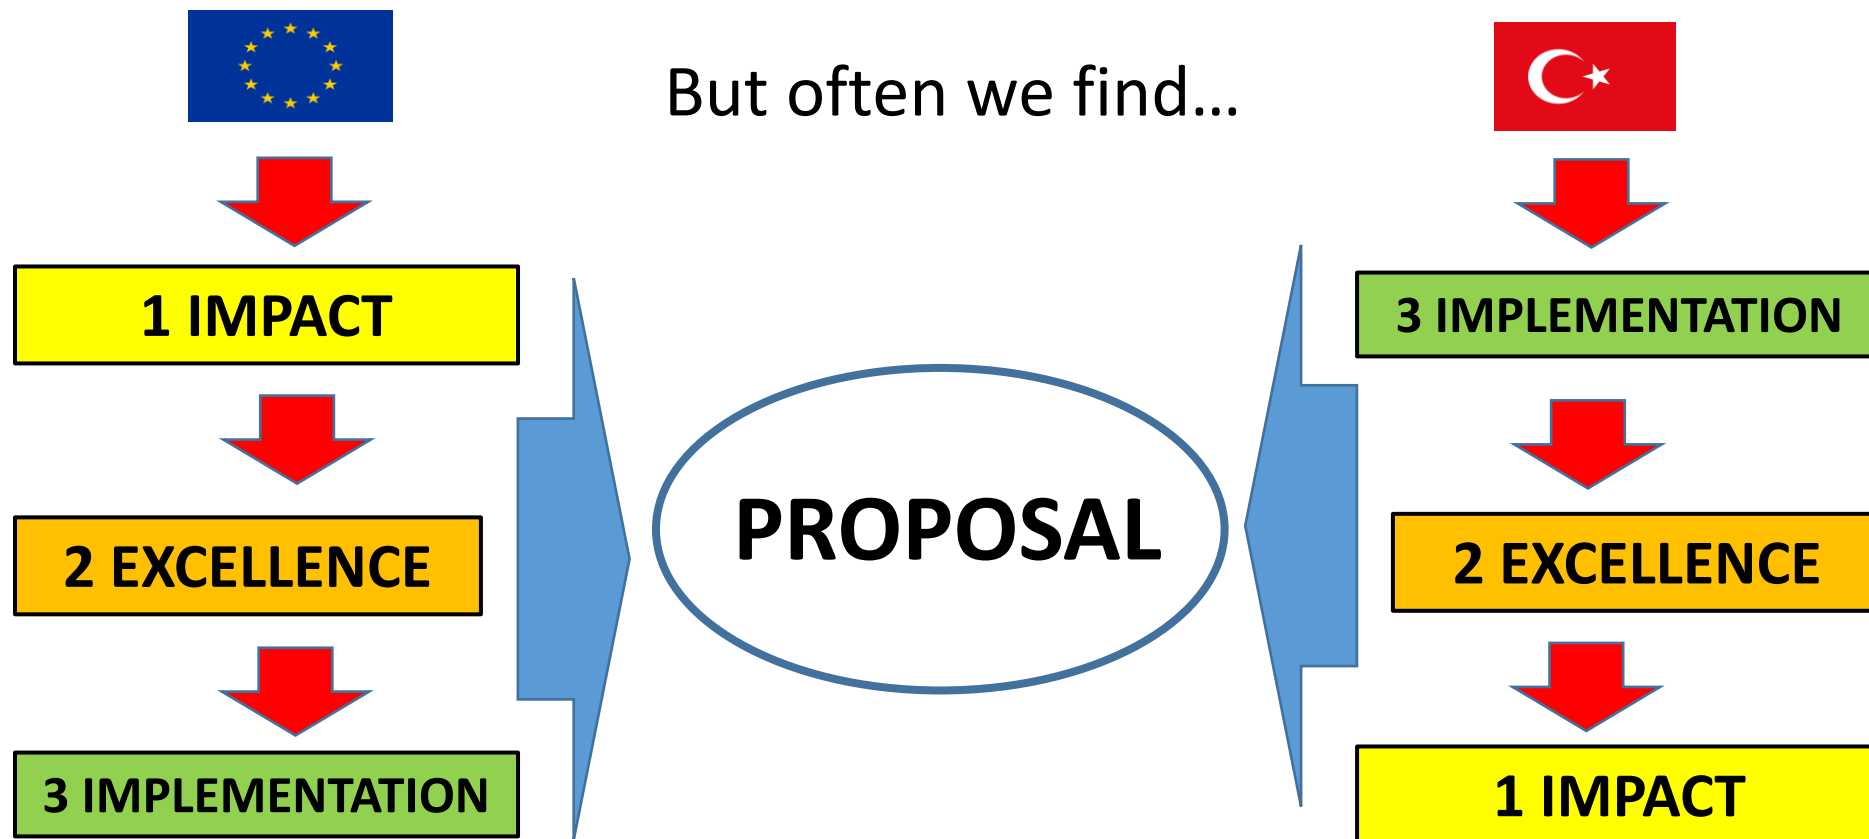

**EXCELLENCE**

**IMPACT**

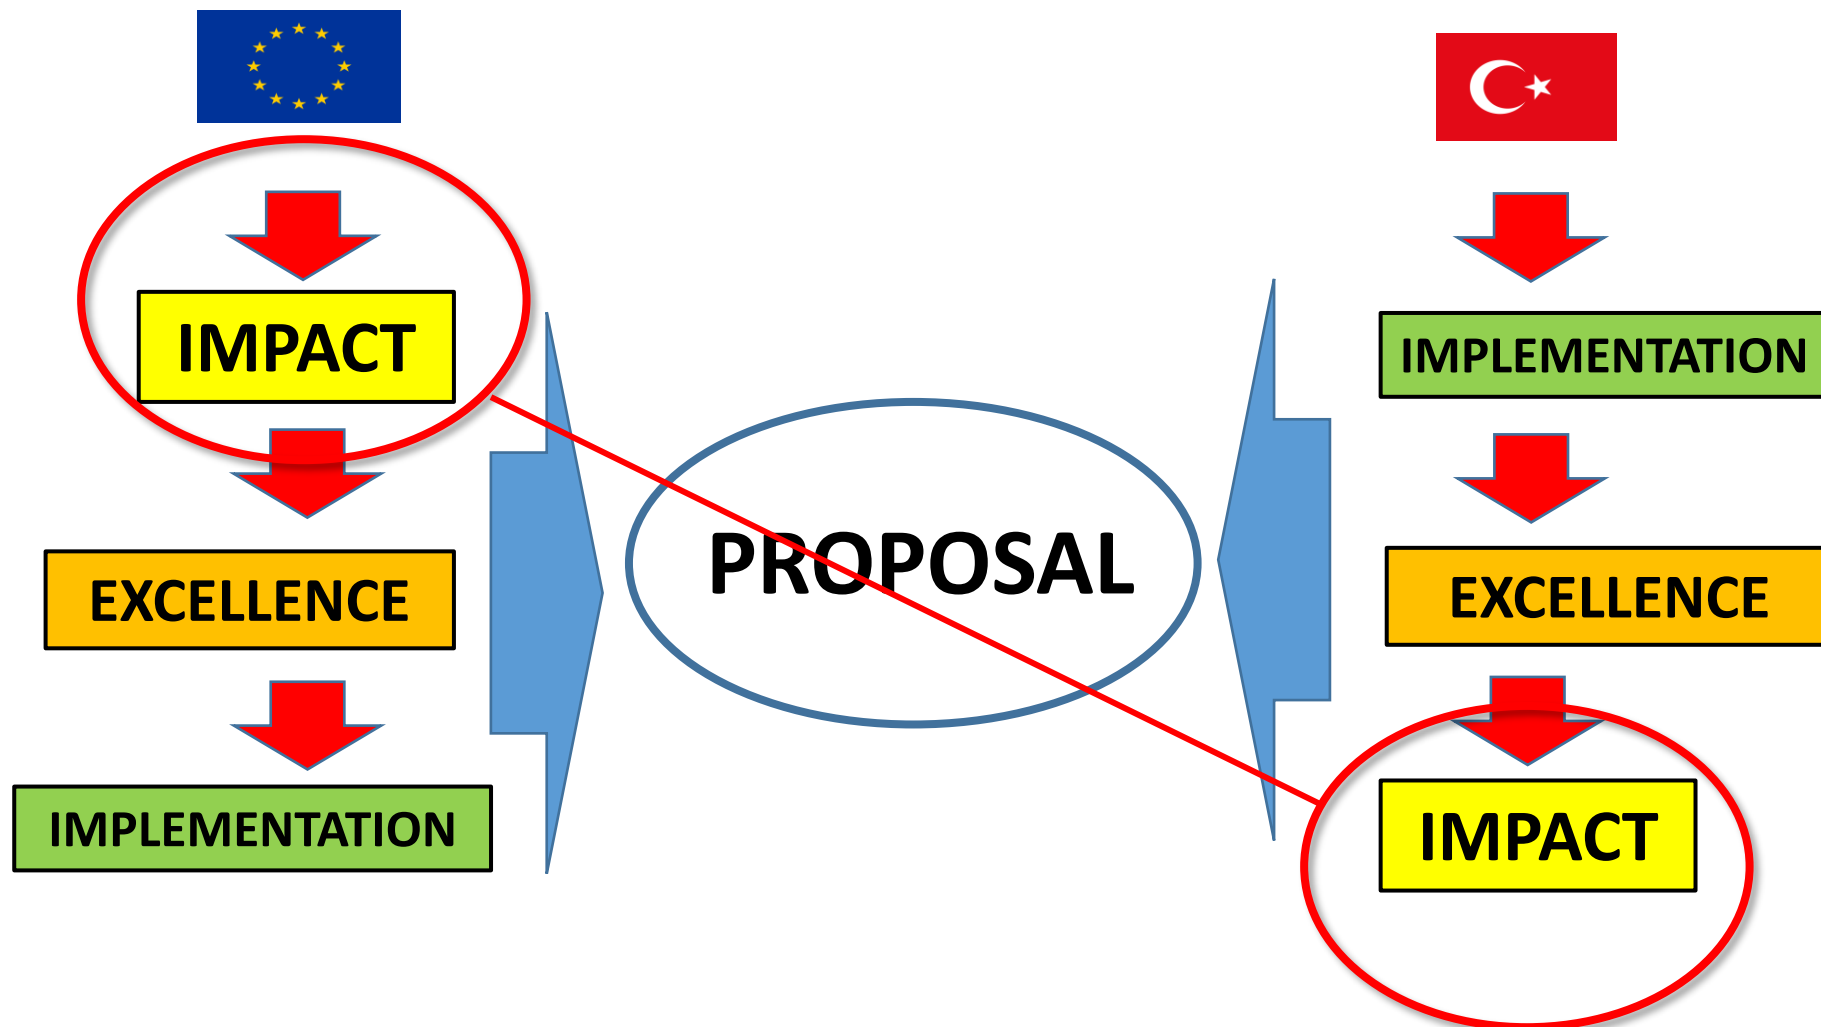

**IMPLEMENTATION**

# So, when it comes to EC proposals...

But often we find...

# A problem of Turkish perception...

# Successful first stage applications

- Feedback from evaluators
- Business strategy/plan
- 3 free days of remote coaching
- Submit full proposal within 12 months of response date of first application

# Full Proposal Resubmission

- **First** time rejection...
  - Improved proposal can be submitted to one of next **2 full application** cut-offs.
- **Rebuttal** procedure
  - Use it to **inform**, not defend and question evaluator competence and judgement
- **Second** time rejection...
  - No resubmission allowed for 12 months.
  - Then, a new or improved proposal can be submitted as **short application**.

# Feedback from Jury members

## More clarity is needed on...

- Distinct technical milestones
- Ownership of IPR
- Allocation of budget and corresponding resources
- Understanding of technical and business risks
- Actual and expected TRLs
- Interdependence of work packages and tasks
- The team for future exploitation
- The credibility of the business objectives
