Horizon Europe - Work Programme 2023-2024 Food, Bioeconomy, Natural Resources, Agriculture and Environment

HORIZON-CL6-2024-FARM2FORK: New healthy and sustainable food products and processes

Specific conditions	
<i>Expected EU contribution per project</i>	The Commission estimates that an EU contribution of around EUR XX million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<i>Indicative budget</i>	The total indicative budget for the topic is EUR XX million.
<i>Type of Action</i>	Research and Innovation Actions
<i>Eligibility conditions</i>	The conditions are described in General Annex B. The following exceptions apply: The following additional eligibility criteria apply: The proposals must use the multi-actor approach. See definition of the multi-actor approach in the introduction to this work programme part.

Expected outcome: In line with the European Green Deal priorities, the farm to fork strategy for a fair, healthy and environment-friendly food system, and the EU's climate ambition for 2030 and 2050, the successful proposal will support R&I to develop new food products and processes in conventional and organic production systems that optimize nutritional, structural and functional food properties of raw materials to enhance health and well-being benefits of EU citizens, to improve nutrition status, to reduce food production costs and with low impact on the environment/climate. It will contribute to the transformation of food systems to deliver co-benefits for climate (mitigation and adaptation), biodiversity, environmental sustainability and circularity, dietary shift, sustainable healthy nutrition and safe food, food poverty reduction and empowerment of communities, and thriving businesses.

Project results are expected to contribute to all of the following outcomes:

- New knowledge that food industry can use in the design of the new healthy, natural, minimally processed and sustainable food products and processes to improve health and well-being of EU citizens and with low impact on the environment/climate.
- Alignment in goals of consumers and food solution providers for more healthy, natural, tasty, minimally processed, affordable and sustainable source food.
- New market and job opportunities for food SMEs and industries.

Scope:

Proposals are expected to address the following:

- **Develop and optimise new methods/processes with low impact on the environment to produce minimally processed functional food ingredients and food products and assess their nutritional, sensorial, structural and functional properties to enhance health and well-being.**
- **Develop new healthy, natural, tasty, minimally processed, sustainable and affordable food products and assess their nutritional, structural, sensorial and functional properties to enhance health and well-being, to improve nutrition status and to reduce costs with low impact on the environment** (e.g. reformulation of food products with less salt, sugar, saturated and trans fats and additives, less red and processed meat, more plant based with more fruits, vegetables, nuts, seeds high in fibre and bioactive compounds).
- **Investigate, assess and develop improved predictive models for effects (risks/benefits) of food ingredients and mixture of them on consumer health.**
- **Study and optimise the role of food matrix structure to make specific ingredients available or not (in case of caloric control) to our digestive system to reach the desired health effects/to combat NCDs.**
- Where relevant demonstrate the safety in accordance with relevant EU regulatory frameworks related to their placing on the market, and generate data to enable registration of less toxic alternatives.
- **Ensure societal acceptance of new food products and processes.**

- Proje metninde, hemen giriş kısmında amaç ve hedefler «Objectives» başlığı altında açık ve net belirtilmiştir
- Çağrı başlığı ile ilişkisi gösterilmiştir
- Mevcut durum iyi sunulmuş, proje ile nasıl değişeceği net yazılmıştır
- Hakemlerin metin içinde Ctrl+F ile arayacakları, sorularda geçen «**soundness of the proposed methodology**», «**inter-disciplinary approaches**», «**gender dimension**» gibi kalıplar aynen kullanılmış ve metin içinde koyu fontla yazılmıştır
- Metnin sürükleyici bir yapısı vardır, şekil, tablo, şema kullanımından kaçınılmamıştır ve görüntü çözünürlüğü yüksektir

İyi Bir Proje Önerisi Nasıl Olmalı-Nasıl Olmamalı

This project is co-funded by the European Union and the Republic of Türkiye

- Değerlendiriciler farklı disiplinlerdendir, bu bakımdan yöntem kısmı basit bir dille, teknolojiye aşina olmayan bir hakeme deliller sunarak (web sayfası/yayın gibi) yazılmıştır
- Expected impacts kısmındaki beklentilerin hepsine en az bir yanıt oluşturacak şekilde hazırlanmıştır (RIA ve IA)
- IA projelerinde ise talep edilen TRL seviyeleri ve çözüm sayılarına sadık kalınmıştır
- Patent beklentisi olan noktalar, hakları zedelemeyecek ölçüde açık yazılmıştır, gizem mevcuttur, ama manzara sisli değildir

İyi Bir Proje Önerisi Nasıl Olmalı-Nasıl Olmamalı

Bu proje Avrupa Birliği ve Türkiye Cumhuriyeti tarafından finanse edilmiştir.
This project is co-funded by the European Union and the Republic of Türkiye

- İş paketleri birbirinden tamamen kopuk, belli partner gruplarına ait alt projeler gibi görünmez, bilakis birbiri ile iyi bir şekilde ilişkilendirilmiştir
- Expected impact kapsamında olmayan, aksesuar görevi görecek hiçbir fazladan iş/araştırma ilave edilmemiştir
- SME-Research Infrastructure dengesi mevcuttur, NGO projeye dahil edilmiş veya destek mektubu alınmıştır
- Sanayi ve kurumlardan destek mektubu alınmıştır
- Partner bütçeleri iş yükleri (PM) ile orantılıdır
- Altyapı, sarf ve seyahat harcamaları için justification yapılmıştır
- Avrupa-Asya-Afrika gibi en az 3 kıtadan partnerler vardır
- Partnerlerin ekiplerinde yüksek ve orta kategorili araştırmacılar mevcuttur (SME bile olsa)

Proje yazarken/katılırken

This project is co-funded by the European Union and the Republic of Türkiye

- İşe yaramayacak hiçbir partner konsorsiyumda tutulmamalıdır
- Aynı durum ekibiniz için geçerlidir
- Her partner için yedekte bir ikincisi mevcut olmalıdır (bütçe ve rekabet problemleri)
- Bütçe yapma işi son ana bırakmamalıdır
- Risklerin gerçekçi olarak tespit edilmesi gereklidir
- Projenizi en az bir profesyonele okutmanız yararlı olacaktır
- Projelerde Communication, dissemination kısımları ve sosyal inovasyon kısmı giderek daha önemli hale gelmektedir-sosyal bilimler
